The company was acquired in 1999, which was made possible by the fact that the company was not listed on the stock exchange and, after 1999, the company was acquired in private. In 1999, about 10,000 were built.

This model, built from 1967 to 1973, is very similar to the Police Package. Also known as a factory model 'TD', this was the first small-frame wing cylinder version to be made for a powerful cartridge and became a very popular police weapon. It has a slightly larger frame to accept the longer cylinder needed to chamber more powerful cartridges such as the .32-20 and .38 S&W. In addition to the original chamberings, Rem-UMC

This model is quite rare, as Calt manufactured only 200 of them in 1992. It is basically a Police Special with a heavy duty clutch barrel. It is chambered for the .38 S&W and was built to be very strong and resistant to rough treatment, what one might expect on the U.S. border with Mexico. The finish is blued and wears like iron. Price: \$2,500.00.

This is a conventional version with the standard engine and, in the last four years of its production, it was more limited. Coda manufactured this model between 1975 and 1980.

This model was specially fabricated for U.S. Air Force pilots who carried it for personal protection. At 11 oz., it is extremely lightweight because both the frame and the cylinder are made of aluminum alloy. It has a short, easily manageable 2-inch barrel and is chambered for a distinctive .38 "special" "144" military cartridge with a chamber pressure of 36,000 pounds per square inch. The finish is black, with checkered walnut grips. There were approximately 1,200 manufactured in 1970 and they are marked "U.S." or "A.F." for serial numbers #1 through #1199. (Note: Some disagreement exists whether this model is properly called "Aircrewman," "Air Crewman." We have used the latter term, except on the barrel roll-markings.)
