Essential Questions in Adolescent Literacy Jill Lewis, 2009-05-04 In each chapter of this unique volume an exemplary teacher collaborates with a prominent scholar to present real world strategies for putting literacy research to work in grades 5-12. These lively dialogues tackle key questions in adolescent literacy including issues of motivation, critical thinking skills, content area writing, differentiated instruction, assessment, English language learning, and technology. Suggestions for incorporating adolescents out of school literacies and working with reading specialists and coaches show how to build connections between the classroom and wider communities. In-depth portraits of challenges and successes in the classroom, practical instructional tips, and stimulating questions for reflection make the book a valuable resource for inservice and preservice teachers.
