Startup Owners Manual Spanish:

La estrategia de comunicación de las startups en España Yolanda Román Morán, 2017-01-01 El emprendedor ha experimentado una importante evolución en los últimos años en los que han surgido iniciativas marcadas por la innovación. Se trata de las llamadas startups: empresas emergentes que buscan emprender o montar un nuevo negocio. Muchos son los espacios dedicados a analizar y promover el entorno emprendedor: encuentros, congresos, aceleradoras, incubadoras, inversores, business angels. La difusión de estas iniciativas ha ido en aumento tanto en los medios tradicionales como en las redes sociales, pues han llamado la atención ya sea por el producto y el servicio que ofrecen ya sea por su particular modo de trabajar o porque satisfacen nuevas necesidades. Por este motivo es clave que estas empresas gestionen de forma profesional su estrategia de comunicación. Este libro analiza cómo confeccionan su plan de comunicación las principales startups españolas, qué perfil tiene su responsable, en qué actividades centran sus esfuerzos a través de qué canales, con qué herramientas, cómo miden la eficacia de sus acciones y cuál es el papel que desempeñan las redes sociales y las agencias de comunicación en esta estrategia.

Managing Startup Enterprises in Emerging Markets Ananya Rajagopal, 2019-10-12 This book provides a comprehensive view of the entrepreneurial dynamics within startups by analyzing their marketing strategies in the context of exploiting new opportunities, enhancing stakeholder values, and protecting their business ecosystem for continuous growth. Managing startup enterprises is a complex managerial task as these businesses need to overcome the competition by understanding thoroughly all the moves of rival firms in the local/global markets. This book explores the incidence and severity of problems pertaining to organizational design, marketing strategy, the consumer-centric approach, and the transaction-based approach faced by start-up enterprises in order to improve business performance. This text will motivate future research on managing start-up enterprises in terms of developing efficiency in leadership and achieving market competitiveness and organizational growth. It will serve as an important work to those studying entrepreneurial leadership and marketing.

A Startup Field Guide in the Age of Robots and AI Oliver Mitchell, 2025-06-18 Launching a startup is like climbing a mountain just maybe more treacherous I say this as I have spent years as a backpacker and entrepreneur While hiking through the Alaskan Tundra I feared brown bears and crevasses Yet nothing prepared me for the responsibility of payroll for over 200 families relying on my business plan to feed their children Unlike traditional software the mere smell of hardware sensors and robot gearing sends shivers through most investors with red flags arising from the perceived capital inefficiencies and intense research and development This is coupled with a high talent requirement before launching even a minimum viable product as these inventions demand a cross section of skills mechanical electrical and software engineering To set out on the trail of uncrewed success machine inventors and founders require a detailed field guide to meet customer demand and financing objectives My goal for this book is to help you at a pivotal point in your ideation process and at the same time introduce you to a cadre of potential mentors Through interviews with some of the most respected luminaries in this field I aim to help fortify your resolve to follow your passions and build a billion dollar company The chapters of this book have been organized like a field guide as if you are setting out on a trip in the wild Just like it s essential to satiate yourself before scaling mountains fast tracking your innovation into the hands of early adopters is vital for achieving success on Main Street

Commercialisation and Innovation Strategy in Small Firms Tim Mazzarol, Sophie Reboud, Delwyn Clark, Monique Moore, Peter Malone, Geoffrey N. Soutar, 2022-06-30 This book focuses on the process of commercialisation and innovation management in small firms Although commercialisation and new product development NPD has been covered quite extensively relatively little attention has been given to how small to medium enterprises SMEs engage with these issues The book explores this topic in depth taking a close look at the reasons why decisions are made and mapping this behaviour against established theories and best practice models of NPD and commercialisation The book uses case studies to analyse the relationship between entrepreneurial decision making and commercialisation and investigates how and why NPD and commercialisation decisions are made which offers valuable insights from both a theoretical and applied perspective

Bridging the Gap Between AI, Cognitive Science, and Narratology With Narrative Generation Ogata, Takashi, Ono, Jumpei, 2020-09-25 The use of cognitive science in creating stories languages visuals and characters is known as narrative generation and it has become a trending area of study Applying artificial intelligence AI techniques to story development has caught the attention of professionals and researchers however few studies have inherited techniques used in previous literary methods and related research in social sciences Implementing previous narratology theories to current narrative generation systems is a research area that remains unexplored Bridging the Gap Between AI Cognitive Science and Narratology With Narrative Generation is a collection of

innovative research on the analysis of current practices in narrative generation systems by combining previous theories in narratology and literature with current methods of AI The book bridges the gap between AI cognitive science and narratology with narrative generation in a broad sense including other content generation such as a novels poems movies computer games and advertisements The book emphasizes that an important method for bridging the gap is based on designing and implementing computer programs using knowledge and methods of narratology and literary theories In order to present an organic systematic and integrated combination of both the fields to develop a new research area namely post narratology this book has an important place in the creation of a new research area and has an impact on both narrative generation studies including AI and cognitive science and narrative studies including narratology and literary theories It is ideally designed for academicians researchers and students as well as enterprise practitioners engineers and creators of diverse content generation fields such as advertising production computer game creation comic and manga writing and movie production
