**Community, Crime Control, and Collective Efficacy** Craig D. Uchida,Marc L. Swatt,Shellie E. Solomon,Sean P. Varano,2015-10-30 Collective efficacy is a neighborhood level concept in which community members create a sense of agency and assume ownership for the state of their local community This concept is one of several forms of formal and informal social control that predict the overall functioning of a community In this book the authors examine collective efficacy and crime in eight Miami Dade County Florida neighborhoods based on data they collected from across the country and in the Miami Dade neighborhoods themselves They discuss findings relevant to the theory of collective efficacy itself

ramifications for its use within communities and make recommendations for future research and for translating these results into actionable crime prevention activities

**Regression Modeling Strategies** Frank E. Harrell , Jr.,2015-08-14 This highly anticipated second edition features new chapters and sections 225 new references and comprehensive R software In keeping with the previous edition this book is about the art and science of data analysis and predictive modelling which entails choosing and using multiple tools Instead of presenting isolated techniques this text emphasises problem solving strategies that address the many issues arising when developing multi variable models using real data and not standard textbook examples Regression Modelling Strategies presents full scale case studies of non trivial data sets instead of over simplified illustrations of each method These case studies use freely available R functions that make the multiple imputation model building validation and interpretation tasks described in the book relatively easy to do Most of the methods in this text apply to all regression models but special emphasis is given to multiple regression using generalised least squares for longitudinal data the binary logistic model models for ordinal responses parametric survival regression models and the Cox semi parametric survival model A new emphasis is given to the robust analysis of continuous dependent variables using ordinal regression As in the first edition this text is intended for Masters or PhD level graduate students who have had a general introductory probability and statistics course and who are well versed in ordinary multiple regression and intermediate algebra The book will also serve as a reference for data analysts and statistical methodologists as it contains an up to date survey and bibliography of modern statistical modelling techniques

**Statistics for Marketing and Consumer Research** Mario Mazzocchi,2008-05-22 Balancing simplicity with technical rigour this practical guide to the statistical techniques essential to research in marketing and related fields describes each method as well as showing how they are applied The book is accompanied by two real data sets to replicate examples and with exercises to solve as well as detailed guidance on the use of appropriate software including 750 powerpoint slides with lecture notes and step by step guides to run analyses in SPSS also includes screenshots 136 multiple choice questions for tests This is augmented by in depth discussion of topics including Sampling Data management and statistical packages Hypothesis testing Cluster analysis Structural equation modelling
