Fujiwara, Junyi Zhang, 2013-06-04 This book aims to provide a good understanding of and perspective on sustainable transport in Asia by focusing on economic environmental and social sustainability It is widely acknowledged that the current situation and trends in transport are not always sustainable in Asia due in part to the fast growing economy and the astounding speed of urbanization as well as least mature governance As essential research material the book provides strong support for policy makers and planners by comprehensively covering three groups of strategies characterized by the words avoid e g urban form design and control of car ownership shift e g establishing comprehensive transportation systems and

increasing public transportation systems for both intracity and intercity travel and improve e.g. redesign of paratransit system, low emission vehicles, intelligent transportation systems and eco life. These are elaborated in the book alongside consideration of the uncertainty of policy effects in the future. The book is also valuable for scholars and scientists because of the diverse methodologies presented and proposed herein. Among those are the four step model with full feedback mechanisms, the bi-level programming model with sustainability goals, data envelopment analysis and stochastic frontier analysis approaches, structural equation models, discrete and/or continuous choice models, copula based models, survival models and driving risk models with short term memory. Using data collected from more than ten Asian cities including those in both developed and developing nations, the pathway to sustainable transport in Asia gradually becomes clear. Criminal Law Case Digests Atty. DEOGENES NAMBAYAN AGELLON, 2021-03-14. A hornbook and textbook, it explains the basics, fundamentals and rudiments of Criminal Law and conjunctively delves further into the legal texts and treatises upon which established precedents on the subject are based, wherewith the book descants the more subtle and perplexing issues and legal principles as pronounced by the High Court in the cases discussed and cited in this work. This volume contains an aggregate of four hundred and forty (440) cases showing the facts on how the crime was perpetuated and in plain and easy language, the meaning of the legal provisions being discussed carefully selected and culled from more than a century of Supreme Court decisions. The presentation deviates from the conventional method of article by article sequence of discussion and instead sunders them into various segments according to the issues posed and the legal doctrines applied and discussed, with review materials in outline form on several aoristic and obscure areas interjected between the segments. By the described method of instruction further guided by the syllabi systematically interwoven with a quick search subject index, thereby modifying the format of the index section to find easy to find additional review materials, the readers, the legal researchers, the students of criminal law, the bar and board reviewees and the police officers alike would find ease in learning and understanding Criminal Law. **Guide to Japan's Auto Industry, Facts & Info**, 1988.
