Coatings on Glass 1998 H. Pulker,H. Schmidt,M.A. Aegerter,1999-11-26 This conference provided a forum where researchers and industrialists working with glass and thin films could meet and discuss common complex problems Many apparently old fundamental procedures and processes are still under investigation due to their complexity In particular it is often so that experience dictates the operating conditions e g a special glass treatment or a special coating process rather than the understanding of the treatment or the process itself It was therefore the aim of this conference to discuss the various problems and to deepen the knowledge that is useful for industrial situations Based on the fundamental steps of glass fabrication modification and film deposition and property studies and the search for possible applications a wide range of glass and plastic treatments have been carefully considered in this book by experts working in the field
