Project Bibliography Guide

INTRODUCTION TO A BIBLIOGRAPHY

A bibliography is an important part of any research project. It shows where you found your information and gives credit to the authors and creators of those sources. This helps you avoid plagiarism, which is using someone else's work without giving them credit. A good bibliography also helps others to find the sources you used if they want to learn more about your topic.

Understanding the Basics of Online Research

The Ultimate Guide to Online Kid-Friendly Science Research

When you find information online, it's important to understand the basics of how search engines work. Search engines use algorithms to find the most relevant information. Discuss the different combinations of keywords and how they can help you find exactly what you are trying to find.

Teaching students how to identify and use keywords is one of the most important skills they need. Explain the difference between keywords related to their research topic and how changing or combining keywords can help them find more specific and concise results with their keywords.

Teach students how to interpret the results. Teach them how to preview a webpage to gauge its relevancy and how to find the information they need.
