investment of these structures with desire power and other aspects of subjectivity rather than the personality of the artist or the creative process. However, in this book, the human dimension is not lost. By claiming that the structures in question are not merely linguistic, semiotic, or narratological, although they are all of these, the human dimension is returned not in the raw as in traditional approaches but through the traces it leaves in the text as activated by its reading. This book is ideal for students of literature and psychoanalytical theory. Handbook of Latin American Literature (Routledge Revivals) David

History of Translation Studies Anne Lange, Daniele Monticelli, Christopher Rundle, 2024-03-20. The *Routledge Handbook of the History of Translation Studies* is an exploration of the history of translation and interpreting studies (TIS) as a field of intellectual enquiry. The volume covers the evolution of thinking on translation from the earliest discourses in Assyria, Egypt, Israel, China, India, Greece, and Rome up to the early 20th century when TIS emerged as an identifiable academic field. The volume also traces the institutionalization of TIS and its key concepts from their beginnings in the 1920s in Ukraine up to their contemporary interdisciplinary manifestations. Written by leading international scholars, many of whom played a direct role in the events they describe, the chapters in this volume provide a comprehensive and in-depth account of the birth and consolidation of translation and interpreting studies as a thriving interdisciplinary. With a focus on providing readers with the methodological and theoretical tools they need to conduct research as well as background in the historiography of TIS, this handbook is an indispensable resource for all students and researchers of translation and interpreting studies. The

Routledge Handbook of Translation and Ethics Kaisa Koskinen, Nike K. Pokorn, 2020-12-16. The *Routledge Handbook of Translation and Ethics* offers a comprehensive overview of issues surrounding ethics in translating and interpreting. The chapters chart the philosophical and theoretical underpinnings of ethical thinking in Translation Studies and analyze the ethical dilemmas of various translatorial actors, including translation trainers and researchers. Authored by leading scholars and new voices in the field, the 31 chapters present a wide coverage of emerging issues such as increasing technologization of translation, posthumanism, volunteering and activism, accessibility, and linguistic human rights. Many chapters provide the first extensive overview of the topic or present new takes on established areas. The book is divided into four parts, with the first covering the most influential ethical theories. Part II takes the perspective of agents in different contexts and the ethical dilemmas they face, while Part III takes a critical look at central institutions structuring and controlling ethical behaviour. Finally, Part IV focuses on special issues and new challenges and signals new directions for further study. This handbook is an

Revivals: God, Literature and Process Thought (2002) Darren Middleton, 2018-02-01 Originally published in 2002 *God Literature and Process Thought* looks at the use of God in writing as a part of the creative advance immersed in the processes of reality and affected by events in the world This edited collection outlines and promotes the novel view that there is much to be gained when those who value the insights of process thought encounter the many and varied writers of literature and literary theory It also celebrates the notion of process poesis a fresh way of reflecting theologically and philosophically that takes account of literary forms and promises to transform creatively the very structure of process thought today *Society and Literature 1945-1970 (Routledge Revivals)* Alan Sinfield, 2013-12-17 First published in 1983 this book focuses on the twentieth century writer as both a product and an interpreter of his or her society It explores the social basis of our conceptions of literature and the ways in which writing is affected by the media institutional and technical through which it reaches readers The text looks at experiences of the period in terms of domestic and world affairs sexuality and philosophical and religious attitudes It discusses the social and economic structures which specifically affect the act of writing and considers the dominant developments of the period in three genres novels poetry and writing for theatre

Literature in Protestant England, 1560-1660 (Routledge Revivals) Alan Sinfield, 2009-07-15 The hardline uncompromising theology preached by the English Church in the 16th and 17th Centuries had disturbing effects on the literature of the period This study originally published in 1983 assesses the importance of the prevailing religious climate to the work of several major writers both in and out of sympathy with the contemporary protestantism It is argued that the accepted view of the period as essentially Christian Humanist obscures the harsher aspects of a Calvinism which throws into relief the agonies of a writer like Donne the acceptances of one like George Herbert Many writers rejected more or less explicitly the Christian

dogma through the heroic assertion of human potential in Shakespearean and other dramatic characters the nihilism of Marlowe or the secular rationalism of Bacon and Hobbes Milton is central to this complex web of belief and rejection piety and atheism acceptance of predestination and determination to accept fate that characterises the period Finally Sinfield shows how this protestantism disintegrated under the strain of internal contradictions and external pressures and in the process helped to stimulate secularism In this original and clearly written book scholarship is deployed unobtrusively to place many major works in an unaccustomed and stimulating perspective
