Cross-border Transfer and Collateralisation of Receivables

Woo-jung Jon, 2018-01-25 Legal systems around the world vary widely in terms of how they deal with the transfer of and security interests in receivables. The aim of this book is to help international financiers and lawyers in relevant markets in their practice of international receivables financing. Substantively this book analyses three types of receivables financing transactions: outright transfer, security transfer, and security interests. This book covers comprehensive comparison and analysis of the laws on the transfer of and security interests in receivables of fifteen major jurisdictions encompassing common law jurisdictions, Roman Germanic jurisdictions, and French Napoleonic jurisdictions, as well as relevant EU Directives. To be more specific, this book compares and analyses the relevant legal systems of the US, Canada, New Zealand, Australia, Korea, Japan, France, Belgium, England, Hong Kong, Singapore, China, Germany, Austria, and the Netherlands. Furthermore, in order to analyse those legal systems from the international perspective, this book compares relevant international conventions; it also proposes to establish an international registration system for the transfer of and security interests in receivables.

actors the LDP the bureaucracy and big business This growth fueled the enormous social changes of the 1960s and 1970s which in turn forced the transformation of the iron triangle and the basis of party power In a final chapter Masumi reflects on the end of LDP rule in 1993 *Tokyo Business Today* ,1991 Basic Immigration Law ,1993 *Reports Issued in ...* ,1988
