Toni Morrison Strangers Essay:

Black Women, Identity, and Cultural Theory Kevin Everod Quashie, 2004 Ultimately moves beyond these to propose a new cultural aesthetic that aims to center black women and their philosophies Book jacket **Strangers at the Gates** Roger Waldinger, 2001-10-10 These essays look at U S immigration and the nexus between urban realities and immigrant destinies They argue that immigration today is fundamentally urban and that immigrants are flocking to places where low skilled workers are in trouble **All Those Strangers** Douglas Field, 2015 Adored by many appalling to some baffling still to others few authors defy any single critical narrative to the confounding extent that James Baldwin manages Was he a black or queer writer Was he a religious or secular writer Was he a spokesman for the civil rights movement or a champion of the individual His critics as disparate as his readership endlessly wrestle with paradoxes not just in his work but also in the life of a man who described himself as all those strangers called Jimmy Baldwin and who declared that all theories are suspect Viewing Baldwin through a cultural historical lens alongside a more traditional literary critical approach All Those Strangers examines how his fiction and nonfiction shaped and responded to key political and cultural developments in the United States from the 1940s to the 1980s Showing how external forces molded Baldwin s personal political and psychological development Douglas Field breaks through the established critical difficulties caused by Baldwin s geographical ideological and artistic multiplicity by analyzing his life and work against the radically transformative politics of his time The book explores under researched areas in Baldwin s life and work including his relationship to the Left his FBI files and the significance of Africa in his writing while also contributing to wider discussions about postwar US culture Field deftly navigates key twentieth century themes the Cold War African American literary history conflicts between spirituality and organized religion and transnationalism to bring a number of isolated subjects into dialogue with each other By exploring the paradoxes in Baldwin s development as a writer rather than trying to fix his life and work into a single framework All Those Strangers contradicts the accepted critical paradigm that Baldwin s life and work are too ambiguous to make sense of By studying him as an individual and an artist in flux Field reveals the manifold ways in which Baldwin s work develops and coheres

Shipler, 2016-04-20 *A Country of Strangers* is a magnificent exploration of the psychological landscape where blacks and whites meet. To tell the story in human rather than abstract terms the Pulitzer Prize winning writer David K Shipler bypasses both extremists and celebrities and takes us among ordinary Americans as they encounter one another across racial lines. We learn how blacks and whites see each other how they interpret each other's behavior and how certain damaging images and assumptions seep into the actions of even the most unbiased. We penetrate into dimensions of stereotyping and discrimination that are usually invisible and discover the unseen prejudices and privileges of white Americans and what black Americans make of them. We explore the competing impulses of integration and separation the reference points by which the races navigate as they venture out and then withdraw the biculturalism that many blacks perfect as they move back and forth between the white and black worlds and the homesickness some blacks feel for the comfort of all black separateness. There are portrayals of interracial families and their multiracial children expert guides through the clashes created by racial blending in America. We see how whites and blacks each carry the burden of our history. Black white stereotypes are dissected the physical bodies that we see the mental qualities we imagine the moral character we attribute to others and to ourselves the violence we fear the power we seek or are loath to relinquish. The book makes clear that we have the ability to shape our racial landscape to reconstruct even if not perfectly the texture of our relationships. There is an assessment of the complexity confronting blacks and whites alike as they struggle to recognize and define the racial motivations that may or may not be present in a thought a word a deed. The book does not prescribe but it documents the silences that prevail the listening that doesn't happen the conversations that don't take place. It looks at relations between minorities including blacks and Jews and blacks and Koreans. It explores the human dimensions of affirmative action the intricate contacts and misunderstandings across racial lines among coworkers and neighbors. It is unstinting in its criticism of our society's failure to come to grips with bigotry but it is also happily crowded with black people and white people who struggle in their daily lives to do just that. A remarkable book that will stimulate each of us to reexamine and better understand our own deepest attitudes in regard to race in America. **Strangers At Home** Kimberly D. Schmidt, Diane Zimmerman Umble, Steven D. Reschly, 2003-05-22

Uniformly sophisticated interesting and worthwhile essays focusing on the often misunderstood experiences of Anabaptist women across 400 years. Agricultural History Equal parts sociology religious history and gender studies this book explores the changing roles and issues surrounding Anabaptist women in communities ranging from sixteenth century Europe to contemporary North America. Gathered under the overarching theme of the insider outsider distinction the essays discuss among other topics How womanhood was defined in early Anabaptist societies of the sixteenth and seventeenth centuries and how women served as central figures by convening meetings across class boundaries or becoming religious leaders. How nineteenth century Amish tightened the connections among the individual the family the household and the community by linking them into a shared framework with the father figure at the helm. The changing work

world and domestic life of Mennonite women in the three decades following World War II The recent ascendancy of antimodernism and plain dress among the Amish The special difficulties faced by scholars who try to apply a historical or sociological method to the very same cultural subgroups from which they derive The essays in this collection follow a fascinating journey through time and place to give voice to women who are often characterized as the quiet in the land Their voices and their experiences demonstrate the power of religion to shape identity and social practice Makes a major contribution to our understanding of Anabaptist history and the ongoing construction of Anabaptist identity Mennonite Quarterly Review This work is significant both for its breadth and for offering glimpses into the varieties of Mennonite and Amish life Annals of Iowa

Black Aliveness, or A Poetics of Being Kevin Quashie, 2021-02-05 In *Black Aliveness or A Poetics of Being* Kevin Quashie imagines a Black world in which one encounters Black being as it is rather than only as it exists in the shadow of anti Black violence As such he makes a case for Black aliveness even in the face of the persistence of death in Black life and Black study Centrally Quashie theorizes aliveness through the aesthetics of poetry reading poetic inhabitation in Black feminist literary texts by Lucille Clifton Audre Lorde June Jordan Toni Morrison and Evie Shockley among others showing how their philosophical and creative thinking constitutes worldmaking This worldmaking conceptualizes Blackness as capacious relational beyond the normative terms of recognition Blackness as a condition of oneness Reading for poetic aliveness then becomes a means of exploring Black being rather than nonbeing and animates the ethical question how to be In this way Quashie offers a Black feminist philosophy of being which is nothing less than a philosophy of the becoming of the Black world

Making Strangers: Outsiders, Aliens and Foreigners Abbas Maazaoui, 2019-04-05 Studies on foreignness have increased substantially over the last two decades in response to what has been dubbed the migration refugee crisis Yet they have focused on specific areas such as regions periods ethnic groups and authors Predicated on the belief that this so called twenty first century problem is in fact as old as humanity itself this book analyzes cases based on both long term historical perspectives and current occurrences from around the world Bringing together an international group of scholars from Australia Asia Europe and North America it examines a variety of examples and strategies mostly from world literatures ranging from Spain's failed experience with consolidation as a nation state type entity during the Golden Age of Castile to Shakespeare's rhetorical subversion of the language of fear and hate to Mario Rigoni Stern's random status at the unpredictable Italian Austrian borders to Lawrence Durrell's ambivalent approach to noticing the physically visible other to the French government's ongoing criminalization of hospitality to Sandra Cisneros's attempt at straddling two countries and cultures while belonging to neither one to the illusive legal limbo of the DREAMers in the United States We are not born foreigners we are made The purpose of the book is to assert as denoted by the title this fundamental premise that is the making of strangers is the result of a deliberate and purposeful act that has social political and linguistic implications The ultimate expression of this phenomenon is the compulsive labeling of people along artificial

categories such as race gender religion birthplace or nationality A corollary purpose of the book is to help shed light worldwide on one of the most pressing issues facing the world today the place of the other amid fear mongering and unabashedly contemptuous acts and rhetoric toward immigrants refugees and all those excluded within because of race gender national origin religion and ethnicity As illustrated by the examples examined in this book humans have certainly evolved in many areas dealing with the other might not have been one of those It is hoped that the book encourages reflection on how the arts and especially world literatures can help us navigate and think through the ever present crisis the place of the stranger among us

Strangely Rhetorical Jimmy Butts, 2023-05-01 *Strangely Rhetorical* establishes the groundwork for strangeness as a lens under the broader interdisciplinary umbrella of rhetoric and composition and shares a series of rhetorical devices for practically thinking about how compositions are made unique Jimmy Butts explores how strange novel weird and interesting texts work and offers insight into how and why these forms can be invented created and stylized to generate the effective delivery of rhetorical messages in fun divergent ways Using a new theoretical framework that strangeness is inherent within all rhetorical interactions and is potentially useful Butts demonstrates how rhetoric is always already coming from an Other offering an ethical context for how defamiliarized texts work with different audiences Applying examples of seven figures for composing in and across written aural visual electronic and spatial texts the WAVES of media Butts shows how divergence is possible in all sorts of refigured multimodal ways *Strangely Rhetorical* rethinks what exactly rhetoric is and does considering the ways that strange compositions help rhetors connect across a broad range of networks in a world haunted by distance This is a book about strange rhetoric for makers and creatives for students and teachers and for composers of all sorts

Strangers to Ourselves Rachel Aviv, 2022-09-13 New York Times bestseller One of the top ten books of the year at The New York Times Book Review The Wall Street Journal Vulture New York magazine A best book of the year at Los Angeles Times Time NPR The Washington Post Bookforum The New Yorker Vogue Kirkus The acclaimed award winning New Yorker writer Rachel Aviv offers a groundbreaking exploration of mental illness and the mind and illuminates the startling connections between diagnosis and identity *Strangers to Ourselves* poses fundamental questions about how we understand ourselves in periods of crisis and distress Drawing on deep original reporting as well as unpublished journals and memoirs Rachel Aviv writes about people who have come up against the limits of psychiatric explanations for who they are She follows an Indian woman celebrated as a saint who lives in healing temples in Kerala an incarcerated mother vying for her children's forgiveness after recovering from psychosis a man who devotes his life to seeking revenge upon his psychoanalysts and an affluent young woman who after a decade of defining herself through her diagnosis decides to go off her meds because she doesn't know who she is without them Animated by a profound sense of empathy Aviv's gripping exploration is refracted through her own account of living in a hospital ward at the age of six and meeting a fellow patient with whom her life runs parallel until it no longer does Aviv asks how the stories we tell about

mental disorders shape their course in our lives and our identities too Challenging the way we understand and talk about illness her account is a testament to the porousness and resilience of the mind *Critical Essays on Toni Morrison* Nellie Y. McKay,1988 This gathering of critical essays is at once impressive and hospitable characteristic of Morrison s own work as well Basically the contributors of these pieces react to Morrison as a black novelist as a female novelist or as a practitioner of the novel form period black and female or otherwise All of them are interested in how Morrison has stretched the boundaries of these three categories Points are made counterpoints offered her works are examined and cross examined The general opinion is that in reading Morrison critics and general audience alike experience the sheer pleasure of hearing all the resonances of a voice beautiful and powerful ISBN 0 8161 8884 X 37 50 **Eudora Welty, Whiteness, and Race** Harriet Pollack,2013-01-01 Faced with Eudora Welty s preference for the oblique in literary performances some have assumed that Welty was not concerned with issues of race or even that she was perhaps ambivalent toward racism This collection counters those assumptions as it examines Welty s handling of race the color line and Jim Crow segregation and sheds new light on her views about the patterns insensitivities blindness and atrocities of whiteness Contributors to this volume show that Welty addressed whiteness and race in her earliest stories her photography and her first novel *Delta Wedding* In subsequent work including *The Golden Apples* *The Optimist s Daughter* and her memoir *One Writer s Beginnings* she made the color line and white privilege visible revealing the gaping distances between lives lived in shared space but separated by social hierarchy and segregation Even when black characters hover in the margins of her fiction they point readers toward complex lives and the black body is itself full of meaning in her work Several essays suggest that Welty represented race like gender and power as a performance scripted by whiteness Her black characters in particular recognize whiteface and blackface as performances especially comical when white characters are unaware of their role play Eudora Welty *Whiteness and Race* also makes clear that Welty recognized white material advantage and black economic deprivation as part of a cycle of race and poverty in America and that she connected this history to lives on either side of the color line to relationships across it and to an uneasy hierarchy of white classes within the presumed monolith of whiteness Contributors Mae Miller Claxton Susan V Donaldson Julia Eichelberger Sarah Ford Jean C Griffith Rebecca Mark Suzanne Marrs Donnie McMahon David McWhirter Harriet Pollack Keri Watson Patricia Yaeger *Toni Morrison* L. readers Fluent writing can be learned through avid reading but like fluent speech the evidence indicates that it can't be taught

Left Universalism, Africentric Essays Ato Sekyi-Otu, 2018-08-06 *Left Universalism Africentric Essays* presents a defense of universalism as the foundation of moral and political arguments and commitments Consisting of five intertwined essays the book claims that centering such arguments and commitments on a particular place in this instance the African world is entirely compatible with that foundational universalism Ato Sekyi Otu thus proposes a less conventional mode of Africentrism one that rejects the usual hostility to universalism as an imperialist Eurocentric hoax Sekyi Otu argues that universalism is an inescapable presupposition of ethical judgment in general and critique in particular and that it is especially indispensable for radical criticism of conditions of existence in postcolonial society and for vindicating visions of social regeneration The constituent chapters of the book are exhibits of that argument and question some fashionable conceptual oppositions and value apartheid This book will be of great interest to students and scholars in the fields of social and political philosophy contemporary political theory postcolonial studies African philosophy and social thought

Objects and Intertexts in Toni Morrison's "*Beloved*" Maureen E. Ruprecht Fadern, 2020-11-17 *Objects and Intertexts in Toni Morrison's *Beloved** The Case for Reparations is an inspired contribution to the scholarship on one of the most influential American novels and novelists The author positions this contemporary classic as a meditation on historical justice and re comprehends it as both a formal tragedy a generic translation of fiction and tragedy or a novel tragedy Klinger and a novel of objects Its many things literary conceptual linguistic are viewed as vessels carrying the history and the political concerns From this a third conclusion is drawn Fadern argues for a view of *Beloved* as a case for reparations That status is founded on two outstanding object lessons the character of *Beloved* as embodiment of the

subject object relations defining the slave state and the grammatical object weather in the sentence The rest is on the novel's final page This intertextual reference places *Beloved* in a comparative link with Hamlet and Oresteia Fadem's research is meticulous in engaging the full spectrum of tragedy theory much critical theory and a full swathe of scholarship on the novel Few critics take up the matter of reparations still fewer the politics of genre craft and form This scholar posits Morrison's tragedy as constituting a searing critique of modernity as composed through meaningful intertextualities and as crafted by profound thingly objects Brown Altogether Fadem has divined a fascinating singular treatment of *Beloved* exploring the connections between form and craft together with critical historical and political implications The book argues finally that this novel's first concern is justice and its chief aim to serve as a clarion call for material and not merely symbolic reparations This book is freely available to read at <https://taylorandfrancis.com/socialjustice/c/language-literature-arts> *Literature and the Work of Universality* Alice Duhan, Stefan Helgesson, Christina Kullberg, Paul Tenngart, 2024-07-22 In an age of accelerating ecological crises global inequalities and democratic fragility it has become crucial to achieve renewed articulations of human commonality With anchorage in critical theory as well as world literary studies this volume approaches literature and modes of literary thinking as a key resource for such a task Universality is understood here not as an established universalism but as a horizon towards which intellectual inquiry and literary practices orient themselves In the field of world literature there is by now a wide repertoire of epistemological resources through which claims to universality can be both questioned and reconfigured If at one end of the spectrum world literature confronts us with the spectre of homogenisation and the commodification of difference under a regime of global capitalism at another end renewed forms of philological anthropological and ecological attentiveness to the particulars of languages and texts within the crucible of connected histories allow for defamiliarising perspectives both on received historical narratives and aesthetic practices Vernacularity emerges here as a central point of reference for constructing the universal from within the particular the idiomatic and the experiences of social subordination or complicity
