

Manual Handling Operations Regulations 1992

- To do with labelling on packaging, provision of lifting handles etc. Use lifting equipment where possible or tools to make ergonomic lifting easier.
- 1. Avoid hazardous manual handling operations so far as is reasonably practicable, for example by redesigning the task to avoid moving the load or by automating or mechanising the process.
- 2. Make a suitable and sufficient assessment of any hazardous manual handling operations that cannot be avoided.
- 3. Reduce the risk of injury from those operations so far as is reasonably practicable. Where possible, you should provide mechanical assistance, for example a sack trolley or hoist. Where this is not reasonably practicable, look at ways of changing the task, the load and working environment.
