Habitats and Environments

PBS/IPC Big Picture/Term 4/2023-2024

### The Big Idea

In Vanishing Rainforests, we will be learning about how diverse, wonderful and unique our rainforests are as well as what we need to do to ensure their survival. Did you know that rainforests once covered 14% of our world's surface? Now sadly they cover between 3-4% of the world.

## **Vanishing Rainforest Powerpoint:**

Ecotourism in Appalachia Al Fritsch, Kristin Johannsen, 2014-10-17 Tourism is the world's largest industry and ecotourism is rapidly emerging as its fastest growing segment. As interest in nature travel increases, so does concern for conservation of the environment and the well-being of local peoples and cultures. Appalachia seems an ideal destination for ecotourists with its rugged mountains, uniquely diverse forests, wild rivers, and lively arts culture. And ecotourism promises much for the region: protecting the environment while bringing income to disadvantaged communities. But can these promises be kept? Ecotourism in Appalachia examines both the potential and the threats that tourism holds for Central Appalachia. The authors draw lessons from destinations that have suffered from the tourist trap syndrome, including Nepal and Hawaii. They conclude that only carefully regulated and locally controlled tourism can play a positive role in Appalachia's economic development.

**Environmental Ethics and Film** Pat Brereton, 2015-09-16 Environmental ethics presents and defends a systematic and comprehensive account of the moral relation between human beings and their natural environment and assumes that human behaviour toward the natural world can and is governed by moral norms. In contemporary society, film has provided a powerful instrument for the moulding of such ethical attitudes. Through a close examination of the medium, Environmental Ethics and Film explores how historical ethical values can be reimagined and reconstituted for more contemporary audiences. Building on an extensive back catalogue of eco-film analysis, the author focuses on a diverse selection of contemporary films which target audiences' ethical sensibilities in very different ways. Each chapter focuses on at least three close readings of films and documentaries examining a wide range of environmental issues as they are illustrated across contemporary Hollywood films. This book is an invaluable resource for students and scholars of environmental communication, film studies, media and cultural studies, environmental philosophy and ethics. *Canadian Periodical Index*, 1965
