Developmental Reading in Middle and Secondary Schools Lawrence E. Hafner, 1977 *West Side Story: a Novelization and Study Guide for Students and Teachers* Irving Shulman, Glenn Langohr, 2013-08-28 West Side Story is a tragic love story of Tony and Maria that touches all in many ways Set in New York City it introduces two groups The Jets an American gang and The Sharks a Puerto Rican gang The gangs attend a community dance in which they plan a fight Things take an interesting twist when Tony the former leader of the Jets falls for Maria Bernardo s sister Bernardo happens to be the

leader of the Sharks who he doesn't want his sister involved with his rival. This is without a doubt an urban equivalent of Romeo and Juliet. The stories are very similar but West Side Story has an irresistible urban appeal, an appeal that has been capturing audiences and readers young for many decades. Also included: A Study Guide for students and teachers.

Uncommon Sense Timm A. Mackley, 1999-10-15. *Uncommon Sense: Core Knowledge in the Classroom*, author Timm Mackley shares his experiences from implementing the Core Knowledge Sequence in a small town in southeastern Ohio. His scenarios offer a real understanding of why Core Knowledge has been such a wonderful experience for whole communities of learners. As Mackley describes the reasons for using the Core Knowledge Sequence, he substantiates those reasons with the authentic experiences of administrators, teachers, parents, and students. The Core Knowledge Sequence, based on the work of E. D. Hirsch Jr., is a curriculum that describes what students should know and prescribes specific topics for instruction in kindergarten through 8th grade. What students learn throughout this sequence gives them a common base for additional learning. The Core Knowledge Sequence clearly answers the questions asked of teachers and administrators everywhere: What's being taught? The answer is in the systematic syllabus of content. The Core Knowledge Sequence includes topics and subtopics in language arts, world history, American history, geography, visual arts, music, mathematics, and science. It specifies content for only half the school curriculum. The remaining half is preserved for topics chosen by the teacher or the local schools and districts. Mackley offers suggestions on how to implement the Core Knowledge Sequence in your school or district, as well as information on how to network and find supplementary resources key to your school reform effort. Guide and Criteria for Program Quality Review California State Department of Education, California State Dept. of Education, Sacramento, 1994. This document contains guidelines to be used by California schools in conducting the Program Quality Review (PQR). The goal of the self-review process is to enable the entire school community to focus through extensive discussion on how the curriculum and instruction in a school can be improved so that all students can be fully engaged in a high-quality, thinking-meaning-centered curriculum. Part 1 presents a question-and-answer format to clarify concerns about the PQR process and describes the major steps in the process: preparation, the curriculum self-review process, and implementation follow-up. It also outlines the roles of external consultants. Part 2 specifies criteria for evaluating curricula such as health education, history and social science, language arts, mathematics, physical education, science, and visual performing arts, and instructional support. Each curriculum criterion includes a focus statement and corresponding examples of student work and professional practices. Instructional support sections contain a focus statement and exemplars of teaching activities. The third part contains sample timelines, student work summaries, improvement plans, and visitation reports. The final part provides information about California regional networks of foundation and partnership schools and lists of relevant organizations and publications. LMI
