Handbook of Research on the Role of Libraries, Archives, and Museums in Achieving Civic Engagement and Social Justice in Smart Cities Taher, Mohamed, 2021-11-12. In achieving civic engagement and social justice in smart cities, literacy programs are offered in the society by three essential information service providers: libraries, archives, and museums. Although the library and museum services are documented in literature, there is little evidence of community-led library or museum services that make a full circle in understanding community library, community archive, and community museum relationships. The Handbook of Research on the Role of Libraries, Archives, and Museums in Achieving Civic Engagement and Social Justice in Smart Cities examines the application of tools and techniques in library and museum literacy in achieving civic engagement and social justice. It also introduces a new outlook in the services of libraries and museums. Covering topics such as countering fake news, human rights literacies, and outreach activities, this book is essential for community-based organizations, librarians, museum administrations, education leaders, information professionals, smart city design planners, digital tool developers, policymakers engaged in diversity, researchers, and academicians. Tourism, Hospitality and Digital Transformation Kayhan Tajeddini, Vanessa Ratten, Thorsten Merkle, 2019-10-08. Innovation and technological advancements can be disruptive forces, especially for conventional business in the hospitality and tourism industries. This book is timely with its critical examination of such forces and how the two industries should strategize and respond to changes effectively. It examines a wide scope of topics from environmental scanning, formulation, implementation, and evaluation to the way managers make strategy choices for better organizational performance. The book illustrates how companies can re-orient their strategies and appraise the effectiveness of the business, its key competitors, and how they should set business goals through various cases, i.e., different types of hospitality and tourism business from traditional hotels to Airbnb, and endeavors to provide strategic conceptual theories with real-world application through such case studies.

Farming in South Africa, 1926 Dialogue in Places of Learning Adam Cooper, 2016-06-23. Showing how youth from one of the poorest and most violent neighborhoods in Cape Town, South Africa, learn differently in three educational contexts: in classrooms, in a community hip-hop crew, on a youth radio show, this book illuminates how South African schools, like schools elsewhere, subtly reproduce inequalities by sorting students into social hierarchies linked to assessments of their use of language. Highlighting the voices and perspectives of young South Africans, this case study of youth in the global South explores how language is linked to cultural mixing, which occurred during colonialism and slavery and continues through patterns of global mobility. Dialogue in Places of Learning: Youth Amplified in South Africa demonstrates how language and learning are bound to space and place. *The Grants Register*® 1998 Ruth Austin, 0 0, 1997-06-18.
