Teach Main Idea In Third Grade:

Teaching Literacy in Third Grade Janice F. Almasi, Keli Garas-York, Leigh-Ann Hildreth, 2013-10-21 The third grade classroom is a beehive of activity in which young readers transition between emergent and more advanced levels of literacy. This expertly written guide brings to life the rewards and challenges of teaching third graders and helps teachers differentiate instruction for diverse learners. Vividly portraying a week in a highly motivating classroom, the authors present easy-to-use ideas and activities for building fluency, vocabulary, comprehension, writing, and more. Illustrations, reproducible grade-specific resources, and planning tips will make this handy book a boon to third grade teachers every day of the year.

Explaining Reading, Third Edition Gerald G. Duffy, 2014-04-29 This trusted teacher resource and widely adopted text presents effective ways to demystify essential reading skills and strategies for K-8 students who are struggling. It has been fully revised to focus on the Common Core State Standards (CCSS) for English language arts. Following a concise introduction to the CCSS and explicit teaching, 30 engaging examples show how to be explicit when teaching each Literature, Informational Text, and Foundational Skills standard. Grounded in authentic reading tasks that teachers can adapt for their classrooms, the examples guide teachers to differentiate instruction, model and scaffold learning, assess student skills, and align reading instruction with Common Core writing standards. New to This Edition: Significantly revised and restructured with a CCSS focus. The teaching examples are all new or revised. Provides practical ways to develop close reading of text. Incorporates recent research on authentic tasks and adaptive teaching. **Explaining Reading** Gerald G. Issues in Reading Comprehension Rand J. Spiro, Bertram C. Bruce, William F. Brewer, 2017-11-03 Research in cognitive psychology, linguistics, and artificial intelligence—the three disciplines that have the most direct application to an understanding of the mental processes in reading—is presented in this multilevel work originally published in 1980 that attempts to provide a systematic and scientific basis for understanding and building a comprehensive theory of reading comprehension. The major focus is on understanding the processes involved in the comprehension of written text. Underlying most of the contributions is the assumption that skilled reading comprehension requires a coordination of text with context in

a way that goes far beyond simply chaining together the meanings of a string of decoded words The topics discussed are divided into five general areas Global Issues Text Structure Language Knowledge of the World and Inference Effects of Prior Language Experience and Comprehension Strategies and Facilitators and represent a broad base of methodology and data that should be of interest not only to those concerned with the reading process but also to basic science researchers in psychology linguistics artificial intelligence and related disciplines
