

Teachers Day Speech

Good morning respected Principal sir, all the teachers, and dear students. Today we have gathered here to celebrate the Teachers' Day. Teachers' Day is celebrated on 5th September to mark the birth anniversary of Dr. Sarvepalli Radhakrishnan. He was a philosopher, a teacher, and an author.

First, I would like to wish all my respected teachers a very happy Teachers' Day. Teachers are undoubtedly the backbone of the society. They play a big role in building the character of students. They give us knowledge, believe in us, and help us achieve our dreams.

On behalf of all students, I would like to thank all the teachers for the tireless efforts they make to give us knowledge and shape our future.

Happy Teachers' Day!

Thank you

Handbook of Teacher Education Tony Townsend, Richard Bates, 2006-08-09 This book has its origins in conversations that started when the International Council on Education for Teaching ICET and the Australian Teacher Education Association ATEA jointly agreed to co sponsor a World Assembly of Teacher Educators in Melbourne in July 2003 hosted by Monash University The editors of this book were not only intimately involved in the management of the conference but had also been key figures in the Associations involved Tony Townsend had been secretary and on the national board of the South Pacific Association for Teacher Education SPATE which later became ATEA and had previously managed a SPATE conference in Frankston Australia in the 1980s He is currently the President of ICET and now works at Florida Atlantic University Richard Bates has been a long time board member of ATEA and is currently President of that organization He is also a Board member of ICET The International Council on Education for Teaching ICET was founded in 1953 for the purpose of emphasizing international cooperation in educational development in order to improve the quality of teacher education as well as to expand global educational opportunities for people in teacher education Since that time ICET has developed into an international association of practitioners of teacher education policy and decision makers in education government and business dedicated to global development through education ICET is a Non Governmental Organization NGO and participates in NGO meetings and other UNESCO sponsored conferences around the world Singapore's Approach to Developing Teachers Woon Chia Liu, 2021-09-28 Singapore's education system has come to international attention due to its commendable performance on the Worldwide Educating for the Future Index produced by The Economist Intelligence Unit EIU as well as the students continual sterling performance in internationally benchmarked tests such as Trends in International Math and Science Survey TIMSS and Programme for International Student Assessment PISA The accomplishments are the result of a long haul vision of education and more importantly a deep commitment towards developing teachers for the 21st century Singapore has invested steadfastly from the early years in teachers at the front line of the classrooms in schools This book explicates the thinking behind Singapore's approach to developing teachers and building the teaching profession It examines how Singapore strives to attract the best and the brightest people to become teachers develop them into autonomous professionals and grow them over their career so that they are able to deliver quality education for every child The author hopes that by sharing the hindsight insight and foresight of the system and looking at Singapore's aspirations and challenges the book can stimulate reflection and generate discussion and provide ideas for improving teaching and teacher learning worldwide *The Rise of Ecofascism* Sam Moore, Alex Roberts, 2022-01-26 The world faces a climate crisis and an ascendant far right Are these trends related How does the far right think about the environment and what openings does the coming crisis present for them This incisive new book traces the long history of far

right environmentalism and explores how it is adapting to the contemporary world It argues that the extreme right after years of denying the reality of climate change are now showing serious signs of reversing their strategy A new generation of far right activists has realized that impending environmental catastrophe represents their best chance yet for a return to relevance In reality however their noxious blend of conspiracy hatred and violence is no solution at all it is the eco socialism of fools Only a real commitment to climate justice can save us and stop the far right in its tracks No one interested in the struggle against right wing extremism and the crusade for climate justice can afford to miss this trenchant critique of burgeoning ecofascism
