The Healthy Settings Approach in Hong Kong: Sustainable Development for Population

Health Albert LEE, 2021 An individual's health depends on their personal lifestyle and living conditions which are influenced by a host of complex physical social and economic determinants The same is true of organisational and community health This book explains the Healthy Settings Approach as a means to define population and health standards as well as a framework to promote and evaluate health in daily living activities The determinants affecting public health go beyond the availability and quality of healthcare and a concerted effort from all sectors of the community is required to bring about sustained improvements Using the Healthy Settings Approach to facilitate the right to health this book argues that promoting health in multiple and varied settings concurrently will ensure healthy living throughout the community and ultimately the world The author uses real life experiences from different countries with a focus on Hong Kong and discusses many initiatives that have been enacted although not widely reported in some cases Each chapter draws on this evidence and

translates the healthy settings framework into daily practice thus providing guidance in synergising actions across different contexts and offering essential insight for educators researchers and professionals across countless disciplines The Healthy Settings Approach in Hong Kong Sustainable Development for Population Health is the second book in the Healthy Settings Series which focuses on the upstream midstream and downstream approaches for improving population health and reducing health inequity in various settings and contexts

Researching Educational Governance: Realizing UN 2030 Agenda and Beyond H.C. Pokhriyal, B.S. Nagi, M.C. Sati, Padmakar Mishra, R.P. Juyal and A.S. Khullar, 2023-01-01 Achieving the lofty Goal 4 of the UNSDGs which aims to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all will require the entire education system to be reconfigured a fact as aptly underlined in the National Education Policy 2020 of India This would essentially entail putting in place a very effective educational governance devised and formulated on the basis of cutting edge research outputs Three Volumes of the present book is a modest yet maiden attempt to comprehend and unfold the blending of diverse research methodologies and amply demonstrate through empirical findings that innovative policies and interventions curated on the basis of this approach of research can ensure quality education Governance emerges as one of the core areas for research Therefore Volume I provides a wide canvas of governance in general and educational governance in particular for research along with a unique opportunity to elaborate both the theory and practice of Quantitative Qualitative and Participatory Methodologies in researching governance that is the frontier challenge looking for suitable answers Volume II uniquely comprehends multiple aspects of quality in dynamic and wider perspectives as perceived by the primary stakeholders including community Refreshing insight into the quality perspectives of educational governance will facilitate the researchers to explore innovative interventions in respective areas of human development Community is the third constituent of governance along with the state and the market Therefore Volume III explores a futuristic vision of community governance leading to quality education Also an attempt has been made to critically appraise the provisioning of community governance including the local self governments as well as free and compulsory elementary education The Book is a live comprehension of the conceptual framework of research and methods along with handling of research problems at the ground It is like explaining how to by giving suitable case studies conducted by the authors on educational governance It is hoped that the three Volumes will be an exciting learning experience that would enable us to address researching challenges over which the public policy makers researchers development administrators planners and students may build their concepts logical structures and planned interventions facilitating the achievement of effective educational governance at micro level ensuring quality education in the coming decades
