Guardians of the Brazilian Amazon Rainforest: Environmental Organizations and Development Luiz C. Barbosa, 2015-05-08 The Amazon region is the focus of intense conflict between conservationists concerned with deforestation and advocates of agro industrial development This book focuses on the contributions of environmental organizations to the preservation of Brazilian Amazonia It reveals how environmental organizations such as Greenpeace Friends of the Earth WWF and others have fought fiercely to stop deforestation in the region It documents how the history of frontier expansion and environmental struggle in the region is linked to Brazil s position in an evolving capitalist world economy It is shown how Brazil s effort to become a developed country has led successive Brazilian governments to devise development projects for Amazonia The author analyses how globalization has led to the expansion of international commodity chains in the region particularly for mineral ores soybeans and beef He shows how environmental organizations have politicized these commodity chains as weapons of conservation through boycotting certain products while other pro development groups within Brazil claim that such organizations threaten Brazil s sovereignty over its own resources **The**

Quando se aborda governança em políticas públicas, vem à tona outros elementos importantes tais como gestão participativa, transparência, responsabilização e prestação de contas. Accountability é um dos seus mecanismos representados pela liderança, pela estratégia e pelo controle. Tais mecanismos de governança são elementos inerentes ao conceito de governança pública adotado neste Estudo como um conjunto de mecanismos de liderança, estratégia e controle postos em prática para avaliar os resultados, bem como direcionar e monitorar a atuação da gestão com vistas à condução de políticas públicas cujas entregas devem estar a serviço do interesse da sociedade. Quando se trata de políticas de segurança pública, a inserção da governança no ciclo da política pública é imprescindível pela natureza e especificidade da própria política, caracterizada por uma governança multinível que busca uma atuação da União, dos Estados e dos Municípios de forma integrada, coordenada e sistêmica. Espera-se que este estudo possa dar sua contribuição para o aprimoramento dos Planos Estaduais de Segurança Pública, além de propor um modelo de sistema de governança com a adoção de boas práticas e em consonância com os princípios, as diretrizes e os objetivos do Plano Nacional de Segurança Pública.
