Murphy, Perpetua John Urio, 2024-08-02

Whilst there is an extensive body of research exploring the barriers to gender equality and female empowerment in high income states there are far fewer systematic analyses within lower income settings This book draws on extensive empirical data to analyse gender mainstreaming and gender transformative actions in Tanzanian higher education The book maps the practical landscape of gender mainstreaming across 14 universities in Tanzania and the theoretical landscape of African theories of masculinities and femininities underpinning educational institutions and practices It then assesses the Gender Awareness and Transformation through Education project which was designed to support the development of gender expertise and capacities in research and education at one specific institution across both its administrative and academic units Current and future academics at Dar es Salaam University College of Education were trained in gender based research and education and a strategic plan was developed to guide in the establishment of a Gender Research Centre that will provide gender expertise in research and teaching to the College and over time to other HEIs nationally and regionally By bringing together real world insights from action based research the book demonstrates the impact of real time social change and gender transformation with implications both for Tanzania and beyond Bringing novel empirical insights and policy recommendations this book will be of interest to researchers and policy makers across the fields of gender studies education and African studies

Official Airline Guide, 1972 *Annual Review of Comparative and International Education 2022* Alexander W. Wiseman, 2023-12-14 Reflecting on ten prolific years of publication both volumes of the 2022 Annual Review together present discussions on education trends and directions conceptual and methodological developments research to practice area studies and regional developments and diversification of the field of education **ECEL 2022 21st European Conference on e-Learning** Panagiotis Fotaris, Andrew Blake, 2022-10-27 **Leadership and Management: Case Studies in Training in Higher Education in Africa** Mouton, Johann, Wildschut, Lauren, 2015-08-06

There has been a resurgence of interest in training programmes for higher education leaders and management HELM at African universities in recent times Although there have been a few cases of evaluation studies of such programmes in Africa a more systematic review of the lessons learnt through these programmes has not been done This book aims to document and reflect on the learnings from intervention programmes at three African higher education councils It is clear that university leaders face many leadership and management challenges This is the starting point of the book Knowledge Production and Contradictory Functions in African Higher Education Nico Cloete, Peter Maassen, 2015-03-01 The dominant global discourse in higher education now focuses on world class universities inevitably located predominantly in North America Europe and increasingly East Asia The rest of the world including Africa is left to play catch up But that discourse should focus rather on

the tensions even contradictions between excellence and engagement with which all universities must grapple Here the African experience has much to offer the high participation and generously resourced systems of the so called developed world This book offers a critical review of that experience and so makes a major contribution to our understanding of higher education
