Handbook of the Economics of Education Eric A. Hanushek, Stephen J. Machin, Ludger Woessmann, 2016-04-27 The volume of research into the economics of education has grown rapidly in recent years In this comprehensive new Handbook editors Eric Hanushek Stephen Machin and Ludger Woessmann assemble original contributions from leading researchers addressing contemporary advances in the field Each chapter illuminates major methodological and theoretical developments and directs the reader to productive new lines of research As a result these concise overviews of the existing literature offer an essential jumpstart for both students and researchers alike Demonstrates how new methodologies are yielding fresh perspectives in education economics Uses rich data to study issues of high contemporary policy relevance Explores innovations in higher education competition and the uses of technology

Second International Handbook of Urban Education William T. Pink, George W. Noblit, 2017-01-06 This second handbook offers all new content in which readers will find a thoughtful and measured interrogation of significant contemporary thinking and practice in urban education Each chapter reflects contemporary cutting edge issues in urban education as defined by their local context One important theme that runs throughout this handbook is how urban is defined and under what conditions the marginalized are served by the schools they attend Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations This second handbook focuses on factors such as social stratification segmentation segregation racialization urbanization class formation and maintenance and patriarchy The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe Researchers will find an analysis framework that will make the current practice and outcomes of urban education and their alternatives more transparent and in turn this will lead to solutions that can help improve the life options for students historically underserved by urban schools

Handbook of Curriculum Theory, Research, and Practice Peter Pericles Trifonas, Susan Jagger, 2024-02-22 This Handbook paints a portrait of what the international field of curriculum entails in theory research and practice It represents the field accurately and comprehensively by preserving the individual voices of curriculum theorist researchers and practitioners in relation to the ideas rules and principles that have evolved out of the history of curriculum as theory research and practice dealing with specific and general issues Due to its approach to both specific and general curriculum issues the chapters in this volume vary with respect to scope Some engage the purposes and politics of schooling in general Others focus on particular topics such as evaluation the use of instructional objectives or curriculum integration They illustrate recurrent themes and historical antecedents and the curricular debates arising from and grounded in epistemological traditions Furthermore the issues raised in the handbook cut across a variety of subject areas and levels of education and how curricular research and practice have developed over time This includes the epistemological foundations of dominant ideas in the field around theory research and practice that have led to

marginalization based on race class gender sexuality ethnicity age religion and ability The book argues that basic curriculum issues extend well beyond schooling to include the concerns of anyone interested in how people come to acquire the knowledge skills and values that they do in relation to subjectivity and experience
