Thriveology HeeKap Lee, 2021-10-15 Can our students learn something positive for themselves in spite of traumatic and toxic situations? Can they thrive in their cognitive, emotional and social capacities to transform their painful and challenging current COVID-19 environment? What do teachers need to do for this? These questions guided this book to suggest a new perspective of education called the Pedagogy of Thriveology which challenges students to overcome the current toxic social environments based on the biblical perspective. In fact, Jesus presents many effective teaching cases in Scripture. In this book, I identify specific cases of audiences who experienced trauma that are related to physical, emotional, relational, spiritual, cultural, ethical, identity issues along with appropriate learning strategies and instructional processes that are used by Jesus so that the specific audience in each case would be equipped with resilience needed to overcome their trauma.

Handbook of Formative Assessment in the Disciplines Heidi L. Andrade, Randy E. Bennett, Gregory J. Cizek, 2019-05-14 The Handbook of Formative Assessment in the Disciplines meaningfully addresses current developments in the field offering a unique and timely focus on domain dependency. Building from an updated definition of formative assessment, the book covers the integration of measurement principles into practice, the operationalization of formative assessment within specific domains, beyond generic strategies, evolving research directions including student involvement and self-regulation and new approaches to the challenges of incorporating formative assessment training into pre-service and in-service educator training. As supporters of large-scale testing programs increasingly consider the potential of formative assessments to improve teaching and learning, this handbook advances the

subject through novel frameworks intersections of theory research and practice and attention to discernible disciplines
Written for instructors graduate students researchers and policymakers each chapter provides expert perspectives on the procedures and evaluations that enable teachers to adapt teaching and learning in process toward student achievement
