Global Approaches to Early Learning Research and Practice Kenneth R. Pugh, Peggy McCardle, Annie Stutzman, 2018-02-09 The health development and learning of many young children living in disadvantage areas are at serious risk Access to education has improved under the United Nations Millennium Development Goals and there are now programs in low and middle income countries that are aimed at improving instruction and learning The research and evaluation on the effectiveness of such programs show there are significant challenges but also some successes This issue features presentations of leading international scientists representatives from key governmental and non governmental organizations and others working with programs in the developing world and disadvantaged populations The presentations describe the goals existing challenges and potential approaches to providing evidence based programs to

young children in rural remote and poverty stricken areas Topics covered include the state of early childhood in low and middle income nations programs that have shown some success and innovative research approaches that have been often considered unfeasible in these contexts This is the 158th volume in this Jossey Bass series New Directions for Child and Adolescent Development Its mission is to provide scientific and scholarly presentations on cutting edge issues and concepts in this subject area Each volume focuses on a specific new direction or research topic and is edited by experts from that field

Effectiveness of teachers' guides in the Global South Benjamin Piper, Yasmin Sitabkhan, Jessica Mejia, Kellie Betts, 2018-05-10 This report presents the results of RTI International Education's study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide

School and classroom disabilities inclusion guide for low- and middle-income countries Jennae Bulat, Anne M. Hayes, Wykia Macon, Renáta Tichá, Brian H. Abery, 2017-01-04 Having a disability can be one of the most marginalizing factors in a child's life In education finding ways to meet the learning needs of children with disabilities can be challenging especially in schools districts regions and countries with severely limited resources Inclusive education which fully engages all children in quality education including children with various types of disabilities or other learning challenges has proven particularly effective in helping all children learn including those with disabilities This guide provides strategies and recommendations for developing inclusive classrooms and schools We specifically address the needs of Sub Saharan African countries which lack the resources for implementing inclusive education However our strategies and recommendations can be equally useful in other contexts where inclusive education practices have not yet been adopted

EFA Global Monitoring Report - 2013-2014 - Teaching and Learning Achieving quality for all UNESCO, 2014-02-04 The 2013 2014 Education for All

Global Monitoring Report shows that a lack of attention to education quality and a failure to reach the marginalized have contributed to a learning crisis that needs urgent attention Worldwide 250 million children many of them from disadvantaged backgrounds are not learning the basics Teaching and Learning Achieving Quality for All describes how policy makers can support and sustain a quality education system for all children regardless of background by providing the best teachers The Report also documents global progress in achieving Education for All goals and provides lessons for setting a new education agenda post 2015 In addition the Report identifies that insufficient financing is hindering advances in education

Spotlight on Basic education completion and foundational learning in Africa Global Education Monitoring Report Team, UNESCO, 2024-05-07 Progress toward a Literate World Amber Gove, April Mora, Peggy McCardle, 2017-04-10 In order to work toward eradicating extreme poverty and hunger the United Nations Millennium Development Goals significantly include universal primary education gender equality and empowering women Effective early literacy instruction plays a critical role in achieving these goals From around the globe this issue presents evidence based culturally sensitive and cost effective practices in reading instruction and intervention in the early grades Not only will this issue heighten awareness of the challenges faced but it will provide valuable information to help guide and improve diverse global education programs and research especially in developing regions and for children living in poverty or disadvantage in all nations Presenting several experiences from small and large scale reading improvement programs it Focuses on low and middle income countries Describes challenges in implementing studying and scaling them up Informs expectations on how quickly and easily reading performance can change and Provides results and evidence of effectiveness This is the 155th volume in this Jossey Bass series New Directions for Child and Adolescent Development Its mission is to provide scientific and scholarly presentations on cutting edge issues and concepts in this subject area Each volume focuses on a specific new direction or research topic and is edited by experts from that field **Teaching and learning to read in a multilingual context**

IBE, 2017-03-13 **What works in early reading materials** Ana Robledo, Amber Gove, 2019-02-25 Access to books is key to learning to read and sustaining a love of reading Yet many low and middle income countries struggle to provide their students with reading materials of sufficient quality and quantity Since 2008 RTI International has provided technical assistance in early reading assessment and instruction to ministries of education in dozens of low and middle income countries The central objective of many of these programs has been to improve learning outcomes in particular reading for students in the early grades of primary school Under these programs RTI has partnered with ministry staff to produce and distribute evidence based instructional materials at a regional or national scale in quantities that increase the likelihood that children will have ample opportunities to practice reading skills and at a cost that can be sustained in the long term by the education system In this paper we seek to capture the practices RTI has developed and refined over the last decade particularly in response to the challenges inherent in contexts with high linguistic diversity and low operational capacity for

producing and distributing instructional materials These practices constitute our approach to developing and producing instructional materials for early grade literacy We also touch upon effective planning for printing and distribution procurement but we do not consider the printing and distribution processes in depth in this paper We expect this volume will be useful for donors policymakers and practitioners interested in improving access to cost effective high quality teaching and learning materials for the early grades

Learning, Marginalization, and Improving the Quality of Education in Low-income Countries Daniel A. Wagner, Nathan M. Castillo, Suzanne Grant Lewis, 2022-02-21 Improving learning evidence and outcomes for those most in need in developing countries is at the heart of the United Nations Sustainable Development Goal on Education SDG4 This timely volume brings together contributions on current empirical research and analysis of emerging trends that focus on improving the quality of education through better policy and practice particularly for those who need improved learning at the bottom of the pyramid LBOP This volume brings together academic research experts government officials and field based practitioners National and global experts present multiple broad thematic papers ranging from the effects of migration and improving teaching to the potential of educational technologies and better metrics for understanding and financing education In addition local experts practitioners and policymakers describe their own work on LBOP issues being undertaken in Kenya India Mexico and Ivory Coast The contributors argue persuasively that learning equity is a moral imperative but also one that will have educational economic and social impacts They further outline how achieving SDG4 will take renewed and persistent effort by stakeholders to use better measurement tools to promote learning achievement among poor and marginalized children This volume builds on the second international conference on Learning at the Bottom of the Pyramid LBOP2 It will be an indispensable resource for policymakers researchers and government thinktanks and local experts as well as any readers interested in the implementation of learning equity across the globe The first volume Learning at the Bottom of the Pyramid LBOP1 may be obtained at <http://www.iiep.unesco.org/en/learning-bottom-pyramid/4608>

South African Schooling: The Enigma of Inequality Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and

determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Towards Deeper Learning in Primary CLIL Fay Chen, 2025-03-04 Chen proposes a disciplinary literacy DL approach to Content and Language Integrated Learning CLIL planning and teaching in her book in answer to concerns expressed by some about the growth of CLIL internationally in recent decades The concerns regarding CLIL schools circle around the feasibility of the policy particularly regarding the challenges of teaching and learning new subject content in an additional language in primary education In response the author tackles the fundamental questions surrounding CLIL implementation with a focus on fostering deeper learning using examples from the Taiwanese context The chapters delve into the key planning issues in primary education CLIL and explore the language teaching awareness of CLIL teachers in various subject areas In addition to proposing a DL approach the book also discusses the necessity for teachers' awareness of subject specific literacies in curriculum planning highlighting the importance of scaffolding primary students to achieve deeper learning in CLIL classrooms As a whole Chen stimulates discourse and research in CLIL planning and teaching thereby informing CLIL teacher education This book is an essential read for researchers and research students interested in deeper learning and bilingual and multilingual education programs It is also a viable resource for teacher educators and teachers who teach in multilingual programs and primary education
