Erickson, Jessica Robinson, Gary Brase, Jackson Cutsor, 2016-10-14 The Paris Agreement on

Climate Change adopted on December 12 2015 is a voluntary effort to reduce greenhouse gas emissions In order to reach the goals of this agreement there is a need to generate electricity without greenhouse gas emissions and to electrify transportation An infrastructure of SPCSs can help accomplish both of these transitions Globally expenditures associated with the generation transmission and use of electricity are more than one trillion dollars per year Annual transportation expenditures are also more than one trillion dollars per year Almost everyone will be impacted by these changes in transportation solar power generation and smart grid developments The benefits of reducing greenhouse gas emissions will differ with location but all will be impacted This book is about the benefits associated with adding solar panels to parking lots to generate electricity reduce greenhouse gas emissions and provide shade and shelter from rain and snow The electricity can flow into the power grid or be used to charge electric vehicles EVs Solar powered charging stations SPCSs are already in many parking lots in many countries of the world The prices of solar panels have decreased recently and about 30% of the new U S electrical generating capacity in 2015 was from solar energy More than one million EVs are in service in 2016 and there are significant benefits associated with a convenient charging infrastructure of SPCSs to support transportation with electric vehicles Solar Powered Charging Infrastructure for Electric Vehicles A Sustainable Development aims to share information on pathways from our present situation to a world with a more sustainable transportation system with EVs SPCSs a modernized smart power grid with energy storage reduced greenhouse gas emissions and better urban air quality Covering 200 million parking spaces with solar panels can generate about 1 4 of the electricity that was generated in 2014 in the United States Millions of EVs with 20 to 50 kWh of battery storage can help with the transition to wind and solar power generation through owners responding to time of use prices Written for all audiences high school and college teachers and students those in industry and government and those involved in community issues will benefit by learning more about the topics addressed in the book Those working with electrical power and transportation who will be in the middle of the transition will want to learn about all of the challenges and developments that are addressed here *Intelligent Transport Systems* Asier Perallos, Unai Hernandez-Jayo, Enrique Onieva, Ignacio Julio García Zuazola, 2015-12-14 INTELLIGENT TRANSPORT SYSTEMS TECHNOLOGIES AND APPLICATIONS This book provides a systematic overview of Intelligent Transportation Systems ITS offering an insight into the reference architectures developed within the main research projects It delves into each of the layers of such architectures from physical to application layer describing the technological issues which are being currently faced by some of the most important ITS research groups The book concludes with some end user services and applications deployed by industrial partners The book is a well balanced combination of academic contributions and industrial applications in the field of Intelligent Transportation Systems It includes the most representative technologies and research results achieved by some of the most relevant research groups working on ITS collated to show the chances of generating industrial solutions to be deployed in real transportation environments *Freedom from Mid-East Oil* Jerry B.

Brown, Rinaldo Brutoco, James A. Cusumano, 2007-05 **And On That Bombshell** Richard Porter, 2015-10-22 I was Top Gear's script editor for 13 years and all 22 series I basically used to check spelling and think of stupid gags about The Stig I also got to hang around with Jeremy Clarkson Richard Hammond and James May It didn't feel like something you should get paid for From the disastrous pilot show of 2002 to the sudden and unexpected ending in 2015 working on Top Gear was quite a rollercoaster ride We crossed continents we made space ships we bobbed across the world's busiest shipping lane in a pick up truck We also got chased by an angry mob repeatedly sparked fury in newspapers and almost killed one of our presenters I realised that I had quite a few stories to tell from behind the scenes on the show I remembered whose daft idea it was to get a dog I recalled the willfully stupid way in which we decorated our horrible office I had a sudden flashback to the time a Bolivian drug lord threatened to kill us I decided I should write down some of these stories So I have I hope you like them And now a quote from James May Richard Porter has asked me to write a quote for his new book about the ancient history of Top Gear But this is a ridiculous request How can one write a quote Surely by definition a quote must be extracted from a greater body of writing for the purpose of illustrating or supporting a point in an unrelated work I cannot write a quote any more than I could film an out take Porter like Athens has lost his marbles **Science for Life** Brian Clegg, 2015-01-08 In Science for Life acclaimed science writer Brian Clegg cuts through the vested interests and confusing contradictory statements that litter the media and the internet to give a clear picture of what science is telling us right now about changing our lives for the better Discover the much advertised antioxidants that aren't good for you the truth about fat and sugar and why one of the healthiest foods contains carcinogens and 21 E numbers Find out what does and what doesn't enhance brainpower from the failure of playing Mozart to babies to the surprising abilities of caffeine and nicotine Understand the tools that advertisers use to persuade us and how to turn the psychological pressure back on them From the shortcomings of the five second rule to the truth about phone masts and nuclear power kept up to date on a partnering website Science for Life is your guide to surviving and thriving in the modern world
