Marlow,2016-05-13 Referencing early modern English play texts alongside contemporary records accounts and statutes this
study offers an overdue assessment of the relationship between the dramatic efforts of the universities and early modern
male identity Taking into account the near single sex constitution of early modern universities the book argues that
performances of university plays and student responses to them were key ways of exploring and shaping early modern
masculinity Christopher Marlow shows how the plays dealt with their academic and social contexts and analyses their
responses to competing versions of masculinity He also considers the implications of university authority and royal patronage
for scholarly performances of masculinity the effect of the literary traditions of classical friendship and platonic love on
academic representations of male behaviour and the relationship between university drama and masculine initiation rituals
