The Myth Of The Goddess Evolution Of An Image:

The Myth of the Goddess Anne Baring, Jules Cashford, 1993-03-25 A comprehensive scholarly accessible study in which the authors draw upon poetry and mythology art and literature archaeology and psychology to show how the myth of the goddess has been lost from our formal Judeo Christian images of the divine They explain what happened to the goddess when and how she was excluded from western culture and the implications of this loss The Myth of the Goddess Anne **Being and Motion** Thomas Nail, 2019 More than at any other time in human history we live in an age defined by movement and mobility and yet we lack a unifying theory which takes this seriously as a starting point for philosophy The history of philosophy has systematically explained movement as derived from something else that does not move space eternity force and time Why when movement has always been central to human societies did a philosophy based on movement never take hold This book finally overturns this long standing metaphysical tradition by placing movement at the heart of philosophy In doing so Being and Motion provides a completely new understanding of the most fundamental categories of ontology from a movement oriented perspective quality quantity relation modality and others It also provides the first history of the philosophy of motion from early prehistoric mythologies up to contemporary ontologies Through its systematic ontology of movement Being and Motion provides a path breaking historical ontology of our present of Man: Gods of Nature - God of War Gary R. Varner, 2007-10-14 Today the majority of humankind worships a single God Although this God is said to be all loving and wanting peace for his worshippers there is very little peace among the three religions based on common theology Judaism Christianity and Islam all foster hatred for one another causing millions of deaths and untold suffering for hundreds of years This book explores the mythic historical and archaeological record to illustrate the history of these conflicts The Gods of Man also looks at how monotheism eventually dominated and destroyed the ancient and peaceful goddess traditions that had existed for thousands of years before Is the God of today simply used to enforce government edicts justify war and to control society Gary R Varner has written several articles and books on ancient religions folklore and mythology He is a member of the American Folklore Society and the Foundation for Mythological Studies Transfiguring America Jeffrey Steele, 2001 Transfiguring America is the product of more than ten years of research and numerous published articles on Margaret Fuller arguably America's first feminist theorist and one of the most important woman writers in the nineteenth century Focusing on Fuller's development of a powerful language that paired cultural critique with mythmaking Steele shows why her writing had such a vital impact on the woman's rights movement and modern conceptions of gender This groundbreaking study pays special attention to the ways in which Fuller's feminist consciousness and social theory emerged out of her mourning for herself and others her dialogue with Emersonian Transcendentalism and her eclectic reading in occult and mythical sources Transfiguring America is the first book to provide detailed analyses of all of Fuller's major texts including her mystical Dial essays correspondence with Emerson Summer on
