in its pages but of a historical analytical one As such the Atlas engages in the historical analysis of interpreters of both language and cultures in multiple interpreting settings and places including in zones which are less frequently studied in specialized literature in different historical periods and at various scales All the interpreters described in the book share the ability to speak two or more languages and to use them as vehicles otherwise their individual socio professional statuses vary so much that there is no similarity between a Venetian dragoman in Istanbul and a prisoner of war or between a locally recruited interpreter and a missionary Each contributor has approached the specific spatial and temporal dimensions of their subject as perceived through their different methodological lenses This multifaceted perspective which is expected to provide fertile soil for future interdisciplinary research has been possible thanks to a balanced combination of scholars from History and from Translation and Interpreting Studies
