Guided Cognition questions and tasks **Instructor's Manual for Contemporary Business Writing, a Problem Solving Approach** Terry McNally,1986 **Predatory Value Extraction** William Lazonick,Jang-Sup Shin,2019-11-28 Predatory Value Extraction explains how an ideology of corporate resource allocation known as maximizing shareholder value MSV that emerged in the 1980s came to dominate strategic thinking in business schools and corporate boardrooms in the United States Undermining the social foundations of sustainable prosperity it resulted in employment instability income inequity and slow productivity growth In explaining what happened to sustainable prosperity William Lazonick and Jang Sup Shin focus on the growing imbalance between value creation and value extraction in the U S economy and the corporate governance institutions that determine this balance in the nation s major business corporations The imbalance has become so extreme that predatory value extraction is now a central economic activity to the point at which the U S economy as a whole can be aptly described as a value extracting economy Balancing the contributions of economic actors to value creation with their power to extract value provides the foundation for stable and equitable economic growth When certain economic actors are able to assert their power to extract far more value than they contribute to the value creation process an imbalance occurs which when extreme leads to dire economic political and social consequences This book not only explores these consequences but also sets out an agenda for restoring sustainable prosperity *Religion Today* Ross Aden,2012-10-05 Religion Today introduces students to key concepts in religious studies through a compelling problem solving framework Each chapter opens with a contemporary case study that helps students engage in current religious issues explore possible solutions to difficult religious problems today and learn key themes and concepts in religious studies To enhance student learning a free Student Study Guide is available for download from Rowman Littlefield The Study Guide features chapter summaries definition quizzes for students to test themselves on key terms and possible learning activities *Literature, Learning, and Social Hierarchy in Early Modern Europe* Neil Kenny,2022-03-17 In early modern Europe literature and literate knowledge were produced within societies organised along hierarchical lines What difference did that make to literature and literate knowledge How were they inflected by social hierarchy This volume asks these questions of genres disciplines practices and writers ranging across Western Europe Theories of Co-perpetration in International Criminal Law Lachezar D. Yanev,2018-05-07 The proper construction of co perpetration responsibility in international criminal law has become one of the most enduring controversies in this field with the UN Tribunals endorsing the theory of joint criminal enterprise and the International Criminal Court adopting the alternative joint control over the crime theory to define this mode of liability This book seeks to reconcile the ICTY R s and ICC s jurisprudence by providing a definition of co perpetration that could be uniformly applied in the two justice models that these institutions represent the ad hoc and the treaty based model An evaluation framework is adopted pursuant to which the origins merits and deficiencies of the said competing theories are critically assessed and a refined legal framework of co perpetration responsibility is proposed

Peace Time Virginia Page Fortna, 2018-06-05 Why do cease fire agreements sometimes last for years while others flounder barely long enough to be announced How to maintain peace in the aftermath of war is arguably one of the most important questions of the post Cold War era And yet it is one of the least explored issues in the study of war and peace Here Page Fortna offers the first comprehensive analysis of why cease fires between states succeed or fail She develops cooperation theory to argue that mechanisms within these agreements can help maintain peace by altering the incentives for war and peace reducing uncertainty and helping to prevent or manage accidents that could lead to war To test this theory the book first explores factors such as decisive victory and prior history of conflict that affect the baseline prospects for peace It then considers whether stronger cease fires are likely to be implemented in the hardest or the easiest cases Next through both quantitative and qualitative testing of the effects of cease fire agreements firm evidence emerges that agreements do matter Durable peace is harder to achieve after some wars than others but when most difficult states usually invest more in peace building These efforts work Strong agreements markedly lessen the risk of further war Mechanisms such as demilitarized zones dispute resolution commissions peacekeeping and external guarantees can help maintain peace between even the deadliest of foes
