The Law and Legitimacy of Imposed Constitutions Richard Albert,Xenophon Contiades,Alkmene Fotiadou,2018-11-01 Constitutions are often seen as the product of the free will of a people exercising their constituent power This however is not always the case particularly when it comes to imposed constitutions In recent years there has been renewed interest in the idea of imposition in constitutional design but the literature does not yet provide a comprehensive resource to understand the meanings causes and consequences of an imposed constitution This volume examines the theoretical and practical questions emerging from what scholars have described as an imposed constitution A diverse group of contributors interrogates the theory forms and applications of imposed constitutions with the aim of refining our understanding of this variation on constitution making Divided into three parts this book first considers the conceptualization of imposed constitutions suggesting definitions or corrections to the definition of what exactly an imposed constitution is The contributors then go on to explore the various ways in which constitutions are and can be imposed The collection concludes by considering imposed constitutions that are currently in place in a number of polities worldwide problematizing the consequences their imposition has caused Cases are drawn from a broad range of countries with examples at both the national and supranational level This book addresses some

of the most important issues discussed in contemporary constitutional law the relationship between constituent and constituted power the source of constitutional legitimacy the challenge of foreign and expert intervention and the role of comparative constitutional studies in constitution making The volume will be a valuable resource for those interested in the phenomenon of imposed constitutionalism as well as anyone interested in the current trends in the study of comparative constitutional law *The Interconnection of the EU Regulations Brussels I Recast and Rome I* Christoph

Schmon, 2020-03-17 This book deals with the interconnection between the Brussels I Recast and Rome I Regulations and addresses the question of uniform interpretation A consistent understanding of scope and provisions is suggested by the preamble of the Rome I Regulation Without doubt it is fair to presume that the same terms bear the same meaning throughout the Regulations The author takes a closer look at the Regulations systems guiding principles and their balance of flexibility and legal certainty He starts from the premise that such analysis should prove particularly rewarding as both legal acts have their specific DNA The Brussels I Recast Regulation has a procedural focus when it governs the allocation of jurisdiction and the free circulation of judgments The multilateral rules under the Rome I Regulation by contrast are animated by conflict of laws methods and focus on the delimitation of legal systems This fourth volume in the Short Studies in Private International Law Series is primarily aimed at legal academics in private international law and advanced students But it should also prove an intriguing read for legal practitioners in international litigation Christoph Schmon is a legal expert in the fields of Private International Law Consumer Law and Digital Rights After serving in research positions at academic institutes in Vienna and London he focused on EU policy and law making He is appointed expert of advisory groups to the EU Commission Transnational Constitution Making Alicia Pastor y Camarasa, 2024-06-14 This book examines the

largely neglected but crucial role of transnational actors in democratic constitution making The writing or rewriting of constitutions is usually a key moment in democratic transitions But how exactly does this take place Most contemporary comparative constitutional literature draws on the concept of constituent power the power of the people to address this moment But what this overlooks this book argues is the important role of external transnational actors who tend to play a crucial role in the process Drawing on sociolegal methodologies but informed by new legal realism this book develops a new theoretical framework for examining the involvement of such actors in constitution making Empirically grounded the book uncovers a more comprehensive picture of how constitution making unfolds on the ground Illuminating the power dynamics at play during the legal process it reveals not only the wide range of external actors involved but also the continuity between decolonisation and post Cold War constitution making This book the first to provide an in depth examination of external actor involvement in constitution making will appeal to scholars of constitutional law sociolegal studies law and development and transitional justice **Comparative Law and Jurisprudence in Namibia** Samuel Kwesi Amoo, Tapiwa Victor

Competition Law's Innovation Factor Viktoria H S E Robertson, 2020-02-06 In recent years market definition has come under attack as an analytical tool of competition law Scholars have increasingly questioned its usefulness and feasibility That criticism comes into sharper relief in dynamic innovation driven markets which do not correspond to the static markets on which the concept of the relevant market was modelled This book explores that controversy from a comparative legal perspective taking into account both EU competition and US antitrust law It examines the manifold ways in which courts and competition authorities in the EU and US have factored innovation related considerations into market delineation covering innovative product markets product differentiation future markets issues going beyond market definition proper such as innovation competition innovation markets and potential competition intellectual property rights innovative aftermarkets and multi sided platforms This book

finds that going forward the role of market definition in dynamic contexts needs to focus on its function of market characterisation rather than on the assessment of market power Jurists and Legal Science in the History of Roman Law Fara Nasti,Aldo Schiavone,2021-10-10 This book provides a new approach to the study of the History of Roman Law It collects the first results of the European Research Council Project *Scriptores iuris Romani* dedicated to a new collection of the texts of Roman jurisprudence highlighting important methodological issues together with innovative reconstructions of the profiles of some ancient jurists and works Jurists were great protagonists of the history of Rome both as producers and interpreters of law since the Republican Age and as collaborators of the principes during the Empire Nevertheless their role has been underestimated by modern historians and legal experts for reasons connected to the developments of Modern Law in England and in Continental Europe This book aims to address this imbalance It presents an advanced paradigm in considering the most important aspects of Roman law the Justinian Digesta and other juridical late antique anthologies The work offers an historiographic model which overturns current perspectives and makes way for a different path for legal and historical studies Unlike existing literature the focus is not on the Justinian Codification but on the individualities of ancient Roman Jurists As such it presents the actual legal thought of its experts and authors the ancient *iuris prudentes* The book will be of interest to researchers and academics in Classics Ancient History History of Law and contemporary legal studies
