Kouba, 2014-11-18 This book provides a critical introduction to Heidegger's impact on psychiatry and psychology and has a focus on the application of his philosophy to psychiatry This is a complete revision of Heidegger's existential philosophy in the light of psychopathological phenomena Readers will find here a philosophical inquiry into the problem of mental disorder which shows Heidegger's own philosophy in a new light uncovering both its strengths and its weak points The author maps not only Heidegger's interaction with psychiatric thought as depicted in his Zollikon Seminars but also his influence on Swiss phenomenological psychiatry The work treats Heidegger in a critical way taking the phenomenon of mental disorder as a touchstone on which Heidegger's thought is tested The results of such a critical examination are important not only for a

better understanding of psychopathological phenomena but also for a new understanding of Heidegger's approach to human existence. This work treats the phenomenon of mental disorder as a philosophical problem that reflects the ontological character of human existence. Heidegger's approach to mental disorder is confronted with the conceptions of Foucault, Deleuze and Guattari in a novel way. The book is more than just an historical overview as it highlights the limits of phenomenological thought in the area of psychiatry and it shows a possible way of moving beyond them. This is a philosophical work with an interdisciplinary range. Scholars of philosophy and those in the growing field of philosophy of psychiatry as well as those with an interest in Heidegger Studies will be particularly interested in this work.

English as a Medium of Instruction in South Asia Ram Ashish Giri, Amol Padwad, Mian Md. Naushaad Kabir, 2023-10-13. This book examines the English mania phenomenon and the complex circumstances of adopting English Medium Instruction (EMI) by South Asian education systems and the effect of an uneven distribution of resources on the already under-resourced countries in the region. Chapters explore linguistic, social and economic injustices by using an analytic critical approach to examinations of the place, role, provisions and practices of EMI in specific English language teaching (ELT) contexts. The book consequently advocates for the wholesale reform of a system which the authors argue is unjust. Ultimately, the book explores socio-cultural, poststructuralist and English linguistic imperialism theories to contribute a South Asian perspective on the controversy surrounding EMI and examine its role within a wider global discourse on equity and social justice. Critically examining the spread of English in South Asia, this book will be of relevance to researchers, scholars and postgraduate students in applied linguistics, language education, TESOL and sociolinguistics.

Amerasia Elizabeth Horodowich, Alexander Nagel, 2023-09-05. A connected world as imagined by early modern European artists, mapmakers and writers where Asia and the Americas were on a continuum. America and Asia mingled in the geographical and cultural imagination of Europe for well over a century after 1492. Through an array of texts

maps objects and images produced between 1492 and 1700 this compelling and revelatory study immerses the reader in a vision of a world where Mexico really was India North America was an extension of China and South America was marked by a variety of biblical and Asian sites It asks further What does it mean that the Amerasian worldview predominated at a time when Europe itself was coming into cultural self definition Each of the chapters focuses on a particular artifact map image or book that illuminates aspects of Amerasia from specific European cultural milieus Amerasia shows how it was possible to inhabit a world where America and Asia were connected either imaginatively when viewed from afar or in reality when traveling through the newly encountered lands Readers will learn why early modern maps regularly label Mexico as India why the Amazonas region was named after a race of Asian female warriors and why artifacts and manuscripts that we now identify as Indian and Chinese are entangled in European collections with what we now label Americana Elizabeth Horodowich and Alexander Nagel pose a dynamic model of the world and of Europe's place in it that was eclipsed by the rise of Eurocentric colonialist narratives in the nineteenth and twentieth centuries To rediscover this history is an essential part of coming to terms with the emergent polyfocal global reality of our own time
