Thomson Oliver The Queen's Dumbshows Claire Sponsler, 2014-03-10 No medieval Goldsmith, 1891 The Miniatures Catalog ,1980 writer reveals more about early English drama than John Lydgate Claire Sponsler contends Best known for his enormously long narrative poems The Fall of Princes and The Troy Book Lydgate also wrote numerous verses related to theatrical performances and ceremonies This rich yet understudied body of material includes mummings for London guildsmen and sheriffs texts for wall hangings that combined pictures and poetry a Corpus Christi procession and entertainments for the young Henry VI and his mother In The Queen's Dumbshows Sponsler reclaims these writings to reveal what they have to tell us about performance practices in the late Middle Ages Placing theatricality at the hub of fifteenth century British culture she rethinks what constituted drama in the period and explores the relationship between private forms of entertainment such as household banquets and more overtly public forms of political theater such as royal entries and processions She delineates the intersection of performance with other forms of representation such as feasts pictorial displays and tableaux and parses the connections between the primarily visual and aural modes of performance and the reading of literary texts written on paper or parchment In doing so she has written a book of signal importance to scholars of medieval literature and culture theater history and visual studies Reading in the Wilderness Jessica Brantley, 2008-09-15 Just as twenty first century technologies like blogs and wikis have transformed the once private act of reading into a public enterprise devotional reading experiences in the Middle Ages were dependent upon an oscillation between the solitary and the communal In Reading in the Wilderness Jessica Brantley uses tools from both literary criticism and art history to illuminate Additional MS 37049 an illustrated Carthusian miscellany housed in the British Library This revealing artifact Brantley argues closes the gap between group spectatorship and private study in late medieval England Drawing on the work of W J T Mitchell Michael Camille and others working at the image text crossroads Reading in the Wilderness addresses the manuscript s texts and illustrations to examine connections between reading and performance within the solitary monk s cell and also outside Brantley reimagines the medieval codex as a site where the meanings of images and words are performed both publicly and privately in the act of reading Boccaccio's Florence Elsa Filosa, 2022-11-01 Best known as the author of the Decameron Giovanni Boccaccio is a key figure in Italian literature In the mid fourteenth century however Boccaccio was also deeply involved in the politics of Florence and the extent of his involvement steered and inspired his work as a writer Boccaccio's Florence explores the financial political and social turbulence of Florence at this time as well as the major players in literary and political circles to

understand the complex ways they emerged in Boccaccio's writing Based on extensive archival research and close reading of Boccaccio's works the book aims to recover the dynamics of the Florentine conspiracy of 1360 and how this event affected Boccaccio's writing arguing that his works reveal clear references to this episode when read in light of the reconstructed historical context In this rich and textured picture of the man in his time Elsa Filosa documents a microhistory of connections and interconnections and offers new more political and historically imbedded readings of Boccaccio's seminal works

Liturgy, Books and Franciscan Identity in Medieval Umbria Anna Welch, 2015-09-29 In Liturgy Books and Franciscan Identity in Medieval Umbria Anna Welch explores how Franciscan friars engaged with manuscript production networks operating in Umbria in the late thirteenth and early fourteenth centuries to produce the missals essential to their liturgical lives A micro history of Franciscan liturgical activity this study reassesses methodologies pertinent to manuscript studies and reflects on both the construction of communal identity through ritual activity and historiographic trends regarding this process Welch focuses on manuscripts decorated by the ateliers of the Maestro di Deruta Salerno active c 1280 and Maestro Venturella di Pietro active c 1317 in particular the Codex Sancti Paschalis a missal now owned by the Australian Province of the Order of Friars Minor **Illustrating the Past in Early Modern England** James A. Knapp, 2017-07-28 Illustrating the Past is a study of the status of visual and verbal media in early modern English representations of the past It focuses on general attitudes towards visual and verbal representations of history as well as specific illustrated books produced during the period Through a close examination of the relationship of image to text in light of contemporary discussions of poetic and aesthetic practice the book demonstrates that the struggle between the image and the word played a profoundly important role in England's emergent historical self awareness. The opposition between history and story fact and fiction often tenuous provided a sounding board for deeper conflicts over the form in which representations might best yield truth from history The ensuing schism between poets and historians over the proper venue for the lessons of the past manifested itself on the pages of early modern printed books The discussion focuses on the word and image relationships in several important illustrated books printed during the second half of the sixteenth century including Holinshed's Chronicles 1577 and Foxe's Book of Martyrs 1563 1570 in the context of contemporary works on history and poetics such as Sir Philip Sidney's Apology for Poetry and Thomas Blundeville's The true order and Method of wryting and reading Hystories Illustrating the Past specifically answers two important questions concerning the resultant production of literary and historical texts in the period Why did the use of images in printed histories suddenly become unpopular at the end of the sixteenth century and What impact did this publishing trend have on writers of literary and historical texts The Rival Sirens Suzanne Aspden, 2013-04-18 The tale of the onstage fight between prima donnas Francesca Cuzzoni and Faustina Bordoni is notorious appearing in music histories to this day but it is a fiction Starting from this misunderstanding The Rival Sirens suggests that the rivalry fostered between the singers in 1720s London was in large

part a social construction one conditioned by local theatrical context and audience expectations and heightened by manipulations of plot and music This book offers readings of operas by Handel and Bononcini as performance events inflected by the audience s perceptions of singer persona and contemporary theatrical and cultural contexts Through examining the case of these two women Suzanne Aspden demonstrates that the personae of star performers as well as their voices were of crucial importance in determining the shape of an opera during the early part of the eighteenth century
