historical interpretation Contending that the fundamental act of narration itself including the narration of history expresses a system of values Price explores the work of seven contemporary novelists who share a commitment to reexamining history as idea and a refusal to accept history as given Within a theoretical framework based on Friedrich Nietzsche and Giambattista Vico Price investigates how these writers Carlos Fuentes Susan Daitch Salman Rushdie Michel Tournier Ishmael Reed Graham Swift and Mario Vargas Llosa create a discursive space between history and literature a space within which history can be questioned and the making of history explored Through their novels these writers replace the univocal expression of history as a description of what really happened with a polyvocality of competing discourses languages and points of view Price's investigation of three modalities of the poietic novel the history of forgotten possibilities the construction of countermemory and cultural critique and history as myth has far reaching implications for how we read and question the narratives we understand as history By treating the past as a dynamic flow of values rather than a fixed collection of facts History Made History Imagined fosters a deeper understanding not only of literature and philosophy but also of history and our relationship to it The Wiltshire Archæological and Natural History Magazine ,1922 *The microscope; its history, construction, and application* Jabez Hogg,1883 The Secret History of The Mongols & Other Works Arthur Waley,2010-04-24 In this unforgettable book Waley brings together a number of articles poems and translations Included are pieces on the poet Ts'ên Shên and the great Chinese prose writer Han Yü but the most compelling is The Secret History of the Mongols with fantastic tales of epic battles betrayal and love tyrants and prisoners *Apollo, a General History of the Plastic Arts* Salomon Reinach,1906 The Cambridge History of English Literature: Renaissance and reformation Sir Adolphus William Ward,Alfred Rayney Waller,1909 **The Microscope: Its History, Construction and Application: Being a Familiar Introduction to the Use of the Instrument, and the Study of Microscopical Science** Jabez Hogg,1883 **The British cyclopaedia of the arts and sciences (literature, history, geography, law and politics.
