The National Interest September October 2012 Book 121:

Putin's Propaganda Machine Marcel H. Van Herpen, 2015-10-01 Putin's Propaganda Machine examines Russia's information war, one of the most striking features of its intervention in Ukraine. Marcel H. Van Herpen argues that the Kremlin's propaganda offensive is a carefully prepared strategy implemented and tested over the last decade. Initially intended as a tool to enhance Russia's soft power, it quickly developed into one of the main instruments of Russia's new imperialism, reminiscent of the height of the Cold War. The author describes a multifaceted strategy that makes use of diverse instruments, including mimicking Western public diplomacy initiatives, hiring Western public relations firms, setting up front organizations, buying Western media outlets, financing political parties, organizing a worldwide propaganda offensive through the Kremlin's cable network RT and publishing paid supplements in leading Western newspapers. In this information war, key roles are assigned to the Russian diaspora and the Russian Orthodox Church, the latter focused on spreading so-called traditional values and attacking universal human rights and Western democracy in international fora. Van Herpen demonstrates that the Kremlin's propaganda machine not only plays a central role in its hybrid war in Ukraine but also has broader international objectives targeting, in particular, Europe's two leading countries, France and Germany, with the goal of forming a geopolitical triangle consisting of a Moscow-Berlin-Paris axis intended to roll back the influence of NATO and the United States in Europe. Drawing on years of research, Van Herpen shows how the Kremlin has built an array of soft power instruments and transformed them into effective weapons in a new information war with the West.

The Arab Spring and Arab Thaw John Davis, 2016-04-01 What were the unifying principles or strategies that governed the protest movements that swept the Middle East and North Africa in the spring of 2011? Who were the protestors and how did the different authoritarian regimes respond to them? How did regional and international institutions react to a region in turmoil? The Arab Spring and Arab Thaw: Unfinished Revolutions and the Quest for Democracy addresses these questions by examining a range of successful and unsuccessful protest strategies and counter-revolutionary tactics employed by protestors and autocratic regimes. Contributors explore the reactions of the USA, EU, and Arab League to events in the region and provide insight as to the gendered dimensions of the struggle along with the ethnic and tribal divisions that continue to impact the post-revolt period. By addressing these critical queries, the book demonstrates how the Arab Spring has evolved into a protracted Arab Thaw that continues to profoundly affect regional and international politics.

The Petro-state Masquerade Ryan Cecil Jobson, 2024-12-04 A

historical and ethnographic study of the fraught relationship between fossil fuels and political power in Trinidad and Tobago Examining the past present and future of Trinidad and Tobago s oil and gas industries anthropologist Ryan Cecil Jobson traces how a model of governance fashioned during prior oil booms is imperiled by declining fossil fuel production and a loss of state control Despite the twin island nation s increasingly volatile and vulnerable financial condition however government officials continue to promote it as a land of inexhaustible resources and potentially limitless profits The result is what Jobson calls a masquerade of permanence whereby Trinbagonian state actors represent the nation as an interminable reserve of hydrocarbons primed for multinational investment In *The Petro state Masquerade* Jobson examines the gulf between this narrative crafted by the postcolonial state and the vexed realities of its dwindling petroleum fueled aspirations After more than a century of commercial oil production Trinidad and Tobago instructs us to regard the petro state as less a permanent form than a fragile relation between fossil fuels and sovereign authority Foregrounding the concurrent masquerades of oil workers activists and Carnival revelers Jobson argues that the promise of decolonization lies in the disarticulation of natural resources capital and political power by ordinary people in the Caribbean

US Hegemony and the Americas Arturo Santa-Cruz, 2019-12-06 In this book Arturo Santa Cruz advances an understanding of power as a social relationship and applies it consistently to the economic realm in United States relations with other countries of the Western Hemisphere Following the academic and popular debate on the ebb and flow of US hegemony this work centers the analysis in a critical case for the exercise of US power through its economic statecraft the Americas its historical zone of influence The rationale for the regional focus is methodological if it can be shown that Washington's sway has decreased in the area since the early 1970s when the discussion about this matter started it can be safely assumed that the same has occurred in other latitudes The analysis focuses on three regions North America Central America and South America Since each region contains countries that have at times maintained very different relationships with the United States the findings contribute to a better understanding of the practice of US power in the sub region in question adding greater variability to the overall results
