

A photograph of the Colosseum in Rome, Italy, taken at dusk. The ancient amphitheater is illuminated by warm lights, highlighting its iconic tiered arches and weathered stone. The sky is a soft gradient of blue and orange. In the foreground, a modern street with a railing and some buildings is visible, creating a contrast between ancient and modern Rome.

The Old Roman World Illustrated:

The Cambridge Illustrated History of the Roman World Greg Woolf, 2003-11-03 From its mythical foundation in 753 BC to its sack in the fifth century AD the city of Rome had an impact on the world that it would be hard to overestimate At its height the empire which it built up stretched from northern Britain to the deserts of Arabia In this new history an international team of historians archaeologists and classicists presents a vision of the world s most famous imperial power based on the most up to date research and discoveries Chapters and box features present gripping accounts of Roman history and literature and deal with themes ranging from medicine to warfare They are supported by a rich set of illustrations of sites monuments and works of art from across the Empire Read together these build up a fascinating picture of a civilization permeated by its imperial role and of the colossal costs as well as the gains of empire *The Old Roman World* John

Lord, 1867 **The Old Roman World** John Lord, 2018-01-19 A little city founded by robbers on the banks of the Tiber rises gradually into importance although the great cities of the East are scarcely conscious of its existence Its early struggles simply arrest the attention and excite the jealousy of the neighboring nations The citizens of this little state are warriors and either for defense or glory they subdue one after another the cities of Latium and Etruria then the whole of Italy and finally the old monarchies and empires of the world In two hundred and fifty years the citizens have become nobles and a great aristocracy is founded which lasts eight hundred years Their aggressive policy and unbounded ambition involve the whole world in war which does not cease until all the nations known to the Greeks acknowledge their sway Everywhere Roman laws language and institutions spread A vast empire arises larger than the Assyrian and the Macedonian combined a universal empire a great wonder and mystery having all the grandeur of a providential event It becomes too great to be governed by an oligarchy of nobles Civil wars create an emperor who uniting in himself all the great offices of state and sustained by the conquering legions rules from East to West and from North to South with absolute and undivided sovereignty The Caesars reach the summit of human greatness and power and the city of Romulus becomes the haughty mistress of the world The emperor is worshiped as a deity and the proud metropolis calls herself eternal An empire is established by force of arms and by a uniform policy such as this world has not seen before or since *The Oxford Illustrated History of the Roman World*

Thalheimer,2000 Several causes have lately augmented both the means and the motives for a more thorough study of History Modern criticism no longer accepting primitive traditions venal eulogiums partisan pamphlets and highly wrought romances as equal and trustworthy evidence merely because of their age is teaching us to sift the testimony of ancient authors to ascertain the sources and relative value of their information and to discern those special aims which may determine the light in which their works should be viewed The geographical surveys of recent travelers have thrown a flood of new light upon ancient events and above all the inscriptions discovered and deciphered within half a century have set before us the great actors of old times speaking in their own persons from the walls of palaces and tombs Nor is the new knowledge of little value If we look familiarly into the daily life of our fellow men thousands of years ago it is to find them toiling at the same problems which perplex us suffering the same conflict of passion and principle failing it may be for our warning or winning for our encouragement in any case reaching results which ought to prevent our repeating their mistakes The national questions which fill our newspapers were discussed long ago in the Grove the Agora and the Forum the relative advantages of government by the many and the few were wrought out to a demonstration in the states and colonies of Greece and no man whose vote no woman whose influence may sway in ever so small a degree the destinies of our Republic can afford to be ignorant of what has already been so wisely and fully accomplished Present tasks can only be clearly seen and worthily performed in the light of long experience and that liberal acquaintance with History which under a monarchical government might safely be left as an ornament and privilege to the few is here the duty of the many The present work aims merely to afford a brief though accurate outline of the results of the labors of Niebuhr Bunsen Arnold Mommsen Rawlinson and others results which have never so far as we know been embraced in any American school book but which within a few years have greatly increased the treasures of historical literature While it may have been impossible within our limits to reproduce the full and life like outlines in which they have portrayed the characters of ancient times we have sought with their aid at least to ascertain the limits of fact and fable With but few exceptions and those clearly stated as such we have introduced no narrative which can reasonably be doubted The writer is more confident of justice of aim than of completeness of attainment No one can so acutely feel the imperfections of a work like this as the one who has labored at every point to avoid or to remove them to compress the greatest amount of truth into the fewest words and while reducing the scale to preserve a just

proportion in the details To hundreds of former pupils who have never been forgotten in this labor of love and to the kind judgment of fellow teachers some of whom well know that effort has not been spared even where ability may have failed this Manual is respectfully submitted The Bookman ,1911 Catalogue of Books in the Roxbury Branch Library of the Boston Public Library.
