Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board,1964

Women of the Vatican Lynda Telford,2020-02-15 A revealing history of women who were a power behind the papal throne Engaging controversial and sometimes illuminating *The Medici Women* Natalie R. Tomas,2017-07-05 The Medici Women is a study of the women of the famous Medici family of republican Florence in the fifteenth and early sixteenth centuries Natalie Tomas here examines critically the changing contribution of the women in the Medici family to the eventual success of the Medici regime and their exercise of power within it and contributes to our historical understanding of how women were able to wield power in late medieval and early modern Italy and Europe Tomas takes a feminist approach that examines the experience of the Medici women within a critical framework of gender analysis rather than biography Keeping the historiography to a minimum and explaining all unfamiliar Italian terms Tomas makes her narrative clear and accessible to non specialists thus The Medici Women appeals to scholars of women s studies across disciplines and geographical boundaries **Current Technical Service Contracts and Grants** United States. Apprenticeship, Work, Society in Early Modern Venice Anna Bellavitis,Valentina Sapienza,2023-02-10

Apprenticeship in early modern Europe has been the subject of important research in the last decades mostly by economic historians but the majority of the research has dealt with cities or countries in Northern Europe The organization evolution and purpose of apprenticeship in Southern Europe are much less studied especially for the early modern period The research in this volume is based on a unique documentary source more than 54 000 apprenticeship contracts registered from 1575 to 1772 by the Old Justice a civil court of the Republic of Venice in charge of guilds and labour disputes An archival source of such scale provides a unique opportunity to historians and this is the first time that primary research on apprenticeship is leveraging such a large amount of data in one of the main economic centres of early modern Europe This book brings together multiple perspectives including social history economic history and art history and is the outcome of an interdisciplinary collaboration between historians and computer scientists Apprenticeship Work Society in Early Modern Venice will appeal to students and researchers alike interested in the nature of work and employment in Venice and Italy as well as society in early modern Europe more generally The Life and Times of Niccolò Machiavelli Pasquale Villari,1892

Public Policy, Governance and Polarization David K. Jesuit,Russell Alan Williams,2017-07-06 Polarization is widely diagnosed as a major cause of the decline of evidence based policy making and public engagement based styles of policy making It creates an environment where hardened partisan viewpoints on major policy questions are less amenable to negotiation compromise or change Polarization is not a temporary situation it is the new normal Public Policy Governance and Polarization seeks to provide a theoretical foundation for scholars and policy makers who need to understand the

powerful and often disruptive forces that have arisen in Europe and North America over the past decade Academics and practitioners need to better understand this growing trend and to find ways in which it may be managed so that policy solutions to these threats may be developed and implemented Researchers and future policymakers in fields such as public administration public management and public policy need to recognise how institutional design corporatist interest group systems and different pedagogical approaches may help them understand discuss and work beyond policy polarization Edited by two leading political science scholars this book aims to begin that process

Fashion and Masculinity in Renaissance Florence Elizabeth Currie, 2016-07-28 Dress became a testing ground for masculine ideals in Renaissance Italy With the establishment of the ducal regime in Florence in 1530 there was increasing debate about how to be a nobleman Was fashionable clothing a sign of magnificence or a source of mockery Was the graceful courtier virile or effeminate How could a man dress for court without bankrupting himself This book explores the whole story of clothing from the tailor's workshop to spectacular court festivities to show how the male nobility in one of Italy's main textile production centers used their appearances to project social sexual and professional identities Sixteenth century male fashion is often associated with swagger and ostentation but this book shows that Florentine clothing reflected manhood at a much deeper level communicating a very Italian spectrum of male virtues and vices from honor courage and restraint to luxury and excess Situating dress at the heart of identity formation Currie traces these codes through an array of sources including unpublished archival records surviving garments portraiture poetry and personal correspondence between the Medici and their courtiers Addressing important themes such as gender politics and consumption Fashion and Masculinity in
