Kreuter, Kenneth M. Moltner, 2014-08-01 This volume explores new ground in the area of personal transformation achieved partly through a person's volition with a guide or catalyst The authors research and define the dynamics of paradigmatic thinking incorporating a series of case vignettes of personal transitions They describe impediments to such change as well as the post transformation state of mind where vulnerabilities may persist The resultant need for on going commitment may include

guidance or coaching in order to sustain the positive effect of a change in paradigm An important feature of the book is a case study written by Rex a participant in Dr Kreuter s earlier work Rex has achieved significant change in his thought process both in how he sees the world less sinister and his self perspective worthy and connected An in depth view of the new Rex shows the extent to which change has been possible in one human being Combined with other evidence of shifting paradigms drawn from a cross section of therapeutic practice the authors connect the clinical data with their own developed philosophy on the subject of human behavior and the ability to change with the assistance of a therapist guide to effectuate and sustain such change

Cryptography and Network Security V.K. Jain, This book has been written keeping in mind syllabi of all Indian universities and optimized the contents of the book accordingly These students are the book s primary audience Cryptographic concepts are explained using diagrams to illustrate component relationships and data flows At every step aim is to examine the relationship between the security measures and the vulnerabilities they address This will guide readers in safely applying cryptographic techniques This book is also intended for people who know very little about cryptography but need to make technical decisions about cryptographic security many people face this situation when they need to transmit business data safely over the Internet This often includes people responsible for the data like business analysts and managers as well as those who must install and maintain the protections like information systems administrators and managers This book requires no prior knowledge of cryptography or related mathematics Descriptions of low level crypto mechanisms focus on presenting the concepts instead of the details This book is intended as a reference book for professional cryptographers presenting the techniques and algorithms of greatest interest of the current practitioner along with the supporting motivation and background material It also provides a comprehensive source from which to learn cryptography serving both students and instructors In addition the rigorous treatment breadth and extensive bibliographic material should make it an important reference for research professionals While composing this book my intention was not to introduce a collection of new techniques and protocols but rather to selectively present techniques from those currently available in the public domain

James,2010-03 Why do some beliefs become extinct while others adapt and flourish James shows us how genetic evolution and cultural evolution though operating at different rates are one and the same Recent science has gone a long way toward explaining the origin of religious belief in evolutionary terms but Craig James has cracked open the mystery of its tenacity Religion does not exist for us it exists for its own sake Like a selfish gene or a parasite the religion virus catches a free ride in the minds of our species infecting our history and culture      *The Fifth Miracle* Paul Davies,2015-09-22 ARE WE ALONE IN THE UNIVERSE In his latest far reaching book *The Fifth Miracle* internationally acclaimed physicist and writer Paul Davies confronts one of science s great outstanding mysteries the origin of life Three and a half billion years ago Mars resembled Earth It was warm and wet and could have supported primitive organisms If life once existed on Mars might it have originated there and traveled to Earth inside meteorites blasted into space by cosmic impacts Davies builds on the latest scientific discoveries and theories to address the larger question What exactly is life Is it the inevitable by product of physical laws as many scientists maintain or an almost miraculous accident Are we alone in the universe or will life emerge on all Earth like planets And if there is life elsewhere in the universe is it preordained to evolve toward greater complexity and intelligence On the answers to these deep questions hinges the ultimate purpose of mankind who we are and what our place might be in the unfolding drama of the cosmos      *Restoring The Bioelectrical Machine* Abder-Rahim Biad,2016-10-07 The human body is composed of physical matter it possesses characteristics common to all matter that is extension in space and the capacity for movement If it is matter then the laws of physics must also apply to its functioning Human mobility is governed by electro mechanical laws as complex as they may be they are the same laws that regulate the universe This is evidence we can restore the decaying

human organism at the level of discrete matter and its energizing by heat waves emitted by the brain once we understanding this phenomenon we will be amazed at how simple we can restore ourselves to good health and longevity Body functions are electrical in nature it is electrical energy that synthesizes protein and bonds it to its working atomic structure Medical researchers are waiting for the cure to come from biology laboratories and the promise of stem cells but the cure is in the brain itself
