The Minoan Zero Mind Tool:

The Minoan Zero Mind Tool John Forker, 2014-11-06 Forthcoming Books Rose Arny, 2002-04 Daidalos at Work Clairy Palyvou, 2018-12-31 This is primarily a book on architecture and as such it seeks to bring forward the deeper forces that guide the work of all the sons and all the daughters of Daidalos Architecture is the protagonist whereas the prehistoric time of this architecture is as important as any other historical time. This book is firmly based on the realities of a long silenced world available to us today through the agency of archaeology In that sense it addresses archaeologists architectural historians and architects alike in the hope that it will prove useful to those interested in understanding the Minoan world through its architecture as much as those interested in exploring architecture through the Minoan paradigm This dual goal emanates from my deep belief in the timeless and universal values of architecture As a teacher of history of architecture the challenge has been to bring history into the studios where future architecture is formulated to engage history in the discourse on current architectural ethos and practices and to show that an analytical and critical approach to the past is a potent tool for advancing architectural awareness and educating future architects I am equally confident that such an approach will return its benefits back to history for it will provide new tools of thought and methods of interpretation of the relics of the past Having set the scope of this book it is only fair to add what is not included in its goals the reader will not find a descriptive account of Minoan buildings and sites nor a list of the major architectural achievements in chronological order This is due not only to the enormous amount of relevant information that has been accumulated to date but also to an altogether different interest in the subject as described above Time however is crucial We have a mental need to grasp that we are rooted in the continuity of time and in the man made world it is the task of architecture to facilitate this experience Pallasmaa 2005b 32 Time related issues therefore such as permanence and change or tradition and innovation will concern Paperbacks in Print ,1980 Minoan Crafts R.
