Robert W. Merry: Nixon's Strategic Vision

## LEGISLATIVE IRRELEVANCE

The Fading Role of Congress in Foreign-Policy Decision Making

by Jim Webb

# The National Interest March April 2010

**D Kirk**

## **The National Interest March April 2010:**

**The National Interest in Question** Christopher Hill, 2013-08-22 For three decades multiculturalism has been the focus of fierce debates At the same time Europeans have worried at the national level and at that of the European Union about how to relate to a world in which their influence has been steadily reducing But the two discussions on society and on foreign policy have rarely intersected The events of 11 September 2001 did shock the citizens of Western countries into an awareness that international politics could literally explode onto their home streets and generated fear and suspicion about and among minority groups But the excessive focus on terrorism and on Islam which followed hardly did justice to the deeper processes of transnationally induced change which were at work This book attempts to go beyond the emotive political debate to show how foreign policy and domestic society have been becoming more entangled with each other for some time It focuses on the more established Member States of the European Union and the varying paths which they have taken in coping with the new domestic environment fostered by increased migration ethnocultural diversity and transnational relations It investigates the contrasting approaches taken by the European states to what is loosely called multiculturalism and analyses their impact on the interplay between foreign policy and domestic society something which is now a structural feature of political life It concludes with the argument that since domestic society is now taking on some of the diversity associated with international relations governments can no longer assume a national consensus in their relations with the outside world let alone the steady homogenisation of world society

**The Implementation of the Alaska National Interest Lands Conservation Act of 1980, Including Perspectives on the Act's Impacts in Alaska and Suggestions for Improvements to the Act** United States. Congress. Senate. Committee on Energy and Natural Resources, 2017

*Post-Saddam Iraq* Amnon Cohen, Noga Efrati, 2011-03-29 Describes and analyses the major developments in Iraq from the US led invasion until 2010 This title provides an important external international dimension to Iraq's post war development through discussion of the central role played by the Iranian regime and its deep and multi faceted involvement in the Iraqi internal scene

*Economic Diplomacy* Maaïke Okano-Heijmans, 2013-07-04 This book by Maaïke Okano Heijmans makes an important contribution to the concept of economic diplomacy A conceptual study mode of economic diplomacy is combined with applied analysis of Japan's economic diplomacy practice The two approaches reinforce one another yielding a conceptualization of economic diplomacy that is grounded in practical insights A comprehensive approach A core argument in the book is that economic diplomacy strategically affirms that economic commercial interests and political interests reinforce one another and should thus be seen in tandem This contrasts with the predominant approach in the transatlantic world which attaches relatively greater importance to the military economic linkage in the quest for influence The case of Japan Japan has employed economic diplomacy as a central instrument of its foreign policy and quest for national security since the post war period The reconfiguration of regional and global power that started in the 1990s encouraged the

Japanese government in coordination and cooperation with the private sector to reassess its economic diplomacy policy

**Power shifts Economic Diplomacy Japan and the Balance of National Interests** illuminates the debates underlying these shifts the various ways by which Japan's reinvention of its economic diplomacy is implemented and the consequences for Japanese foreign policy at large Practical relevance The critical insights offered by the examination of Japan are pertinent for Western countries as well as for other East Asian nations They will be of interest to scholars and practitioners of diplomacy international relations and international economic law and policy This book is the ninth volume in the Diplomatic Studies series edited by Jan Melissen and published by Brill Martinus Nijhoff Publishers For more information see [brill.com/economic-diplomacy](http://brill.com/economic-diplomacy)

0 *The Politics of Security Sector Reform* Magnus Ekengren, 2016-02-24 Security Sector Reform SSR is increasingly becoming a cornerstone in international security and development cooperation Indeed the concept has often been seen as a panacea for many of the biggest threats to the world such as failed states terrorism and poverty In particular this book focuses on the complexities of implementation of SSR across the globe and the actual and potential role for the European Union EU to play in SSR As suggested in the title of the book this involves not only opportunities but challenges to be overcome as well There are three core themes to this book Policy Policies and Practice By presenting the themes in this particular order a greater appreciation of the influences on the process of SSR from conception to implementation is relayed to the reader This volume appeals to audiences interested in the EU as a global actor and the interrelationships between foreign security defence and development policies

*Afghanistan After the Drawdown* Seth G. Jones, Keith Crane, 2013-11-01 The United States maintains important interests in Afghanistan even as most U.S. and allied troops are withdrawn in 2014 Seth G. Jones and Keith Crane assess the political security and economic challenges facing U.S. policymakers in Afghanistan and evaluate a range of policy options

**Unipolarity and the Evolution of America's Cold War Alliances** Nigel Thalakada, 2012-05-04 Thalakada argues that the principal purpose of US alliances have shifted since the end of the Cold War from containing communist expansionism balance of power to preserving and exercising US power management of power He also looks across all US alliances highlighting the trend from regionally based to more globally active alliances

**On the Mind and Freedom** Elliot Murphy, **The Western European Union** Sally Rohan, 2014-07-17 This full term study of the Western European Union WEU brings to life the history of Europe's search for a co-operative security and defence order from its post World War II origins to the present day Establishing the WEU as a support organization designed to promote the two security ideas of collective defence and integration through the primary organizations of Alliance and Community this book offers a window onto the challenges faced in the development and management of NATO and the evolving EC/EU over time As the WEU's historical journey unfolds the frequently competing visions of the future organization of the European security space are exposed in the fluctuating nature of its own functional evolution and devolution A hybrid organization driven by its dual support role the constructively ambiguous and conveniently

autonomous WEU was to provide a mechanism through which divergent interests could converge and inherent tensions be relieved preventing NATO and EC EU stagnation This book offers fresh insight into the means by which the gradual transformation of the institutional framework of European security was enabled and stakes the WEU's claim as a fundamental and life long contributor to the stability of the European security system

**British Foreign Policy and the National Interest** T. Edmunds, J. Gaskarth, R. Porter, 2014-11-18 Whose interests does British foreign policy serve Is the national interest a useful explanatory tool for foreign policy analysts This interdisciplinary collection responds to these questions exploring ideas of Britain's national interest and their impact on strategy challenging current thinking and practice in the making of foreign policy

Sound the Trumpet Lawrence J. Haas, 2012-06-19 In *Sound the Trumpet* Lawrence J Haas examines the effort by America's leaders and its people its government and private institutions to use the force of our ideals the strength of our economy the power of our military and the influence of our culture to advance freedom and democracy around the world Focused on the period since World War II when human rights promotion became a central feature of U S foreign policy Haas explores what Presidents and Congresses have done the tools they have used the results they have achieved and the obstacles that have stood in their way Writing in a concise accessible style that will engage all readers interested in U S foreign policy he tells a story of dramatic success that is somewhat offset by tragic errors and missed opportunities of idealism and its practical limits of clashes between America's long term goal of advancing freedom and democracy and such short term goals as protecting national security ensuring regional stability and guaranteeing access to natural resources Most strikingly this story demonstrates America's unique and enduring power to shape the course of history and make the world a safer more prosperous place Haas argues forcefully that for all of our missed opportunities and tragic errors the world is a better place because of our efforts

*Orientalism Revisited* Ian Richard Netton, 2012 The publication of Edward Said's *Orientalism* in 1978 marks the inception of orientalism as a discourse Since then Orientalism has remained highly polemical and has become a widely employed epistemological tool Three decades on this volume sets out to survey analyse and revisit the state of the Orientalist debate both past and present The leitmotiv of this book is its emphasis on an intimate connection between art land and voyage Orientalist art of all kinds frequently derives from a consideration of the land which is encountered on a voyage or pilgrimage a relationship which until now has received little attention Through adopting a thematic and prosopographical approach and attempting to locate the fundamentals of the debate in the historical and cultural contexts in which they arose this book brings together a diversity of opinions analyses and arguments

**The Art of War in the Network Age** Joseph Henrotin, 2016-09-16 Previous studies have looked at the contribution of information technology and network theory to the art of warfare as understood in the broader sense This book however focuses on an area particularly important in understanding the significance of the information revolution its impact on strategic theory The purpose of the book is to critically analyze the contributions and challenges that the spread of

information technologies can bring to categories of classic strategic theory In the first two chapters the author establishes the context of the book coming back to the epistemology of revolution in military affairs and its terminology The third chapter examines the political bases of strategic action and operational strategy before the next two chapters focus on historical construction of the process of getting to know your opponents and the way in which we consider information collection Chapter 6 returns to the process of informationalization in the doctrine of armed forces especially in Western countries and methods of conducting network centric warfare The final chapter looks at the attempts of Western countries to adapt to the emergence of techno guerrillas and new forms of hybrid warfare and the resulting socio strategic outcomes **Hot Spots**

Amitai Etzioni, 2017-07-12 There are important reasons for the distinct yet significant course adjustments in American and Western foreign policy which is currently focused on the Middle Eastern and Chinese hot spots In early 2012 the United States pivoted to make the Far East its military and strategic first priority thereby downgrading the Middle East This change in priorities has been accompanied by a curtailed military budget and the end of the two war doctrine Amitai Etzioni argues that pivoting towards the Far East is premature and flawed in principle China can and should be treated for the near future as a potential partner in a changing global order rather than contained and made into an enemy At the same time he argues the true hot spots continue to be in the Middle East albeit not in Iraq or Afghanistan but in Iran and Pakistan Less urgent but of great importance are the ways the West deals with a complex and varied Muslim world with political Islamic parties and social movements and with future waves of Arab awakening Here the distinction between security and nation building becomes essential for both normative and strategic reasons Etzioni expects that we will see few armed humanitarian interventions of the kind we witnessed in 2011 in Libya To this end he examines policies that threaten and favor the promotion of human rights This timely book is written with Etzioni's customary deep appreciation for important issues **The Global Obama**

Dinesh Sharma, Uwe P. Gielen, 2013-12-17 The Global Obama examines the president's image in five continents and more than twenty countries It is the first book to look at Barack Obama's presidency and analyze how Obama and America are viewed by public governments and political commentators around world The author of Barack Obama in Hawaii and Indonesia The Making of a Global President Top 10 Black History Book scaled the globe to gather opinions cultural historical and political analyses about Obama's leadership style Writers journalists psychologists consultants and social scientists present their views on Obama's leadership popularity and many of the global challenges that still remain unresolved As a progress report this is the first book that tries to grasp the Obama phenomenon in totality as perceived by populations around the world with special focus on America's leadership in the 21st Century **Suicide of a Superpower** Patrick J. Buchanan, 2024-07-02 The New York Times bestselling conservative author explains why he believes certain social trends will lead to the downfall of the United States America is disintegrating The one Nation under God indivisible of the Pledge of Allegiance is passing away In a few decades that America will be gone forever In its place will arise a country unrecognizable

to our parents This is the thrust of Pat Buchanan s *Suicide of a Superpower* his most controversial and thought provoking book to date Buchanan traces the disintegration to three historic changes America s loss of her cradle faith Christianity the moral social and cultural collapse that have followed from that loss and the slow death of the people who created and ruled the nation And as our nation disintegrates our government is failing in its fundamental duties unable to defend our borders balance our budgets or win our wars How Americans are killing the country they profess to love and the fate that awaits us if we do not turn around is what *Suicide of a Superpower* is all about Praise for *Suicide of a Superpower* *Suicide of a Superpower* traces the changes in governance and culture in America that foreshadow a decline of epic proportions Buchanan is no stranger to controversy Nor is he prone to exaggerate The crises he describes are real and he is not afraid to say they may prove too much for our democracy to cope with Jack Kenny The New American Magazine Progressives may recoil at these assertions as well as his positions on immigration affirmative action and morality though they may share his sentiments regarding war and America s unnecessary military presence around the world Not to disappoint his loyal followers Buchanan reveals the essence of conservative thought and its origins with clarity and precision Publishers Weekly

**Balancing Power without Weapons** Ashley Thomas Lenihan,2018-03-22 Why do states block some foreign direct investment on national security grounds even when it originates from within their own security community Government intervention into foreign takeovers of domestic companies is on the rise and many observers find it surprising that states engage in such behaviour not only against their strategic and military competitors but also against their closest allies Ashley Lenihan argues that such puzzling behaviour can be explained by recognizing that states use intervention into cross border mergers and acquisitions as a tool of statecraft to internally balance the economic and military power of other states through non military means This book tests this theory using quantitative and qualitative analysis of transactions in the United States Russia China and fifteen European Union states It deepens our understanding of why states intervene in foreign takeovers the relationship between interdependence and conflict the limits of globalization and how states are balancing power in new ways This title is also available as Open Access *Asia's New Geopolitics* Desmond Ball,Lucie Béraud-Sudreau,Tim Huxley,C. Raja Mohan,Brendan Taylor,2021-09-28 Intensifying geopolitical rivalries rising defence spending and the proliferation of the latest military technology across Asia suggest that the region is set for a prolonged period of strategic contestation None of the three competing visions for the future of Asian order a US led Free and Open Indo Pacific a Chinese centred order or the ASEAN inspired Indo Pacific Outlook is likely to prevail in the short to medium term In the absence of a new framework the risk of open conflict is heightened and along with it the need for effective mechanisms to maintain peace and stability As Asia s leaders seek to rebuild their economies and societies in the wake of COVID 19 they would do well to reflect upon the lessons offered by the pandemic and their applicability in the strategic realm The societies that have navigated the crisis most effectively have been able to do so by putting in place stringent protective measures Crisis

management and avoidance mechanisms and even in the longer term wider arms control can be seen as the strategic equivalent of such measures and as such they should be pursued with urgency in Asia to reduce the risks of an even greater calamity

*Strategic Stability in the Second Nuclear Age* Gregory D. Koblentz, 2014-11-01 The world has entered a second nuclear age shaped by rising nuclear states and military technologies Gregory Koblentz argues that the United States should work with the other nuclear armed states to manage threats to nuclear stability in the near term and establish processes for multilateral arms control efforts over the longer term

*The Politics of Change in Palestine* Michael Bröning, 2011-03-04 This book contradicts the dominant myth that incompetent corrupt and uncompromising Palestinian decision makers are responsible for the lasting stalemate in the Middle East Peace Process It highlights recent political developments in Palestine that fundamentally redefine important parameters of the Israeli Palestinian conflict Contrary to public perception new political trends in the Palestinian Territories bolster prospects for the realisation of Palestinian national aspirations Michael Bröning identifies key indicators which fundamentally question dominant Israeli narratives and pose an unprecedented strategic challenge to the Israeli leadership These include the reinvention of Hamas the reform of the Fatah movement Palestinian Prime Minister Salam Fayyad's state building efforts and the surge of non violent resistance against Israel This persuasive book forces us to reconsider the perceived wisdom that the Palestinians are powerless to influence events as they struggle for peace

Getting the books **The National Interest March April 2010** now is not type of challenging means. You could not isolated going similar to books stock or library or borrowing from your associates to admittance them. This is an extremely simple means to specifically acquire lead by on-line. ### **The National Interest March April 2010 Introduction**

In the digital age, access to information has become easier than ever before. The ability to download The National Interest March April 2010 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The National Interest March April 2010 has opened up a world of possibilities. Downloading The National Interest March April 2010 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The National Interest March April 2010 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The National Interest March April 2010. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The National Interest March April 2010. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The National Interest March April 2010, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from.

In conclusion, the ability to download The National Interest March April 2010 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About The National Interest March April 2010 Books**

1. Where can I buy The National Interest March April 2010 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
