The Northcote Trevelyan Report

Richard A. Chapman

The Northcote Trevelyan Report:

The Northcote-Trevelyan Report [on the Organisation of the Permanent Civil Service]. Stafford Henry Northcote Earl of Iddesleigh, Charles Edward Trevelyan, Great Britain. Treasury, 1854 **The Northcote-Trevelyan Report**, 1954 The Origins and Impact of the Northcote-Trevelyan Report on Civil Service Reform in Britain Mary Clarke, 2010 The Civil Service Commission, 1855-1991 Richard A. Chapman, 2004 This book is a history and analysis of the government department most important in the development of the unified Civil Service in the United Kingdom Public Corruption Robert Neild, 2002-09-01 Public Corruption is a stimulating and entertaining book about a daunting problem the influence on public corruption of the changing nature of warfare It will be of as much interest to the general reader and those around the seats of power as it is to historians and social scientists The quality of the writing alone makes it a delight to read English Historical Documents, 1833-1874 David Charles Douglas, George Malcolm Young, W. D. Handcock, 1996 English Historical Documents is the most comprehensive annotated collection of documents on British not in reality just English history ever compiled Conceived during the Second World War with a view to ensuring the most important historical documents remained available and accessible in perpetuity the first volume came out in 1953 and the most recent volume almost sixty years later The print series edited by David C Douglas is a magisterial survey of British history covering the years 500 to 1914 and including around 5 500 primary sources all selected by leading historians Editors It has over the years become an indispensable resource for generations of students researchers and lecturers EHD is now available in its entirety online Bringing EHD into the digital age has been a long and complex process To provide you with first rate intelligent searchability Routledge have teamed up with the Institute of Historical Research one of the research institutes that make up the School of Advanced Study University of London <http://www.history.ac.uk> to produce EHD Online The IHR's team of experts have fully indexed the documents using an exhaustive historical thesaurus developed by the Royal Historical Society for its Bibliography of British and Irish History The sources include treaties statutes declarations government and cabinet proceedings military dispatches orders acts sermons newspaper articles pamphlets personal and official letters diaries and more Each section of documents and many of the documents themselves are accompanied by editorial commentary The sources cover a wide spectrum of topics from political and constitutional issues to social economic religious as well as cultural history R sum de l diteur **Ethics in Public Service for the New Millennium** Richard Chapman, 2019-07-12 This title was first published in 2000 The focus of this analysis is that of moral standards in public service with special attention to the role s of officials It presents discussion of some of the issues that seem to the contributors to be of pressing importance and that seem to have relevance for public service in the new millennium It concentrates in particular on public officials and the constraints imposed on them by the political environment in liberal democracies Leadership in Whitehall Kevin Theakston, 2016-07-27 An entertaining and authoritative study of leadership in the British civil service from one of the

top authors in the field Kevin Theakston draws the lessons of how change in central government can be managed and implemented from a series of biographical studies of the acknowledged leaders in the civil service in the nineteenth and twentieth centuries from Charles Trevelyan the founder of the modern civil service to modern Mandarins such as Robert Armstrong and Margaret Thatcher's personal adviser the outsider Sir Derek Rayner The case studies are linked to the wider themes of leadership and administrative culture in Whitehall illustrating the patterns of change and continuity over time This highly readable and innovative study will appeal to students of British politics and government public administration public policy political history and comparative politics as well as policymakers civil servants and others interested in the policymaking and governing process

The Official History of the British Civil Service Rodney Lowe, 2011-01-25 This first volume of the Official History of the UK Civil Service covers its evolution from the Northcote Trevelyan Report of 1854 to the first years of Mrs Thatcher's government in 1981 Despite current concerns with good governance and policy delivery little serious attention has been paid to the institution vital to both the Civil Service This Official History is designed to remedy this by placing present problems in historical context and by providing a helpful structure in which others and particularly former officials may contribute to the debate Starting with the seminal 1854 Northcote Trevelyan Report it covers the lost opportunity of the 1940s when the Service failed to adapt the needs of big government as advocated by Beveridge and Keynes It then examines in greater detail the belated attempts at modernisation in the 1960s the Service's vilification in the 1970s and the final destruction of the old order during the first years of Mrs Thatcher's government Particular light is shed on the origins of such current concerns as the role of special advisers the need for a Prime Minister's Department the evolution of Parliamentary Select Committees to resolve the potential tension between bureaucracy and Parliamentary democracy This Official History is based on extensive research into both recently released and unreleased papers as well as interviews with leading participants It has important lessons to offer all those both inside and outside the UK seeking to improve the quality of democratic government This book will be of great interest to all students of British history British government and politics and of public administration in general

Crisis and Consensus in British Politics M. Williams, 2000-09-19 Crisis and Consensus in British Politics focuses on the collapse of the post war consensus in the mid 1970s crisis and the emergence of a new consensus in the 1990s It follows this process through six key policy areas including civil service reform privatisation macro economic management and relations with Europe It is designed for students following courses in modern history politics and public policy as well as general readers with an interest in current affairs

The Culture of Secrecy David Vincent, 1998 A comprehensive study of the closure of communication in modern British history right up to 1998 this book seeks to understand why secrets have been kept and how the systems of control have been constructed and challenged over the past 160 years

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crawford, Gordon Pentland, 2018 The two centuries after 1800 witnessed a series of

sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain s past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain s political past and a thought provoking long view for those interested in current political challenges

The Core Executive in Britain Martin J. Smith, 1999-01-20 The study of central government has been dominated by the recurring questions of Prime Ministerial versus Cabinet government and civil service versus ministerial power Using the idea of power dependence this book challenges these simplicities to provide a definitive assessment of and introduction to power and policy at the core of British political life It undermines traditional approaches by demonstrating that power in the core executive is complex and flows between actors and institutions The Prime Minister can only exercise power with the support of the Cabinet and ministers and officials are often partners rather than competitors

Trust and Distrust Mark Knights, 2021 Mark Knights offers the first overview of Britain s history of corruption in office in the pre modern era 1600 1850 Drawing on extensive archival material Knights shows how corruption in the domestic and imperial spheres interacted and how the concept of corruption developed during this period changing British ideas of trust and distrust

Secular Foundations of the Liberal State in Victorian Britain William C. Lubenow, 2024 Examines the entanglement of secularity and liberality in the foundation of the modern state in Britain Modern Britain emerged from the outcome of the French Revolution and the Napoleonic Wars The rather standard Whig account of the long nineteenth century is one of growing stability progress and improvement And yet nothing was preordained or inevitable about the period s stability Ruling elites felt the constant anxieties of revolutionary terrorism As Lubenow argues it was a period of disorganization seeking organization The great nineteenth century reform acts against religious monopoly were aspects of this process of political organization While religion did not disappear these political actions gradually changed the constitutional position of religion As a result a political vacuum was created which was then filled by a secular clerisy These fit and proper persons educated in the reformed universities qualified by success in competitive examinations began to fill positions in the Civil Service and in the professions The effect was to replace the eighteenth century system of confessional loyalties with a liberal political culture based on merit Lubenow s latest study examines the work of these intertwining nineteenth century secular liberal processes Steeped deeply in archival research this book considers biographical

characteristics such as education political connections and social associations but it is equally conceptually guided by categories such as liberalism and secularism It fills an important gap in the political history of nineteenth century British liberalism by taking up the question of entanglement of secularity and liberality in the foundation of the modern state *The Myth of Judicial Independence* Mike McConville, Luke Marsh, 2020-06-28 Through an examination of the history of the rules that regulate police interrogation the Judges Rules in conjunction with plea bargaining and the Criminal Procedure Rules this book explores the Westminster Model under which three arms of the State parliament the executive and the judiciary operate independently of one another It reveals how policy was framed in secret meetings with the executive which then actively misled parliament in contradiction to its ostensible formal relationship with the legislature This analysis of Home Office archives shows how the worldwide significance of the Judges Rules was secured not simply by the standing of the English judiciary and the political power of the empire but more significantly by the false representation that the Rules were the handiwork of judges rather than civil servants and politicians The book critically examines the claim repeatedly advanced by judges that judicial independence is justified by principles arising from the rule of law and instead shows that the rule of law depends upon basic principles of the common law including an adversarial process and trial by jury and that the underpinnings of judicial action in criminal justice today may be ideological rather than based on principles *The International Civil Service* Alexandre Tavadian, 2024-09-02 This book explores the independence of international civil servants across various intergovernmental institutions With rich historical insights and in depth analysis Tavadian uncovers the complex evolution of this independence from its early days to contemporary challenges and practices Drawing on his vast experience and meticulous research he critically assesses the essential role of international civil service independence in ensuring effective international cooperation and proposes concrete solutions for strengthening it An indispensable resource for scholars policymakers and legal practitioners it sheds light on the nuanced dynamics that underpin the operation and integrity of international organizations *The European Public Servant* Patrick Overeem, Fritz Sager, 2015-03-02 European integration is under pressure At the same time the notion of a European administrative space is being explicitly voiced But does a shared idea of the public servant exist in Europe This volume shows how the public servant has been conceived throughout history and asks whether such conceptions are converging towards a common European administrative identity It combines conceptual and institutional history with political thought and empirical political science Sager Overeem s timely analysis constitutes an original effort to integrate history of ideas and cutting edge survey research It presents the subject s ideational foundations as well as its modern manifestation in European administrative space *The many lives of corruption* Ian Cawood, Tom Crook, 2022-05-10 How has corruption shaped and undermined the history of public life in modern Britain This collection begins the task of piecing together this history over the past two and a half centuries from the first assaults on Old Corruption and aristocratic privilege during the late eighteenth century through to the corruption scandals that blighted

the worlds of Westminster and municipal government during the twentieth century It offers the first account that pays equal attention to the successes and limitations of anticorruption reforms and the shifting meanings of corruption It does so across a range of different sites electoral political and administrative domestic and colonial presenting new research on neglected areas of reform while revisiting well known scandals and corrupt practices **Cages of Reason** Bernard S.

Silberman,1993-06 Blending political historical and sociological analysis Bernard S Silberman offers a provocative explanation for the bureaucratic development of the modern state The study of modern state bureaucracy has its origins in Max Weber s analysis of the modes of social domination which Silberman takes as his starting point Whereas Weber contends that the administration of all modern nation states would eventually converge in one form characterized by rationality and legal authority Silberman argues that the process of bureaucratic rationalization took in fact two courses One path is characterized by permeable organizational boundaries and the allocation of information by professionals The other features well defined boundaries and the allocation of information by organizational rules Through case studies of France Japan the United States and Great Britain Silberman demonstrates that this divergence stems from differences in leadership structure and in levels of uncertainty about leadership succession in the nineteenth century Silberman concludes that the rise of bureaucratic rationality was primarily a response to political problems rather than social and economic concerns Cages of Reason demonstrates how rationalization can have occurred over a wide range of cultures at various levels of economic development It will be of considerable interest to readers in a number of disciplines political science sociology history and public administration Silberman has produced an invaluable densely packed work that those with deep knowledge of public administrative development will find extremely rewarding David H Rosenbloom American Political Science Review An erudite incisive and vibrant book the product of intensive study and careful reflection Given its innovative theoretical framework and the wealth of historical materials contained in it this study will generate debate and stimulate research in sociology political science and organizational theory It is undoubtedly the best book on the comparative evolution of the modern state published in the last decade Mauro F Guillen Contemporary Sociology

Thank you for reading **The Northcote Trevelyan Report**. Maybe you have knowledge that, people have look hundreds times for their chosen books like this The Northcote Trevelyan Report, but end up in malicious downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they cope with some harmful bugs inside their desktop computer.

The Northcote Trevelyan Report is available in our digital library an online access to it is set as public so you can get it instantly.

Our book servers saves in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the The Northcote Trevelyan Report is universally compatible with any devices to read
