

The Outsiders

by S. E. Hinton

Please answer the following questions on a separate sheet of paper.

Chapter 1

1. Who are the Socs? Who are the Greasers?

Socs - rich, madras, mustangs, East side

Greasers - poor, t-shirts and jeans, West side

2. How is Pony's relationship with Darry different from his relationship with Soda?

Darry is more like a father-figure to Pony. He loves him, but they argue a lot and he is hard on him. Soda and Pony are friends. He really understands Pony and they have a lot in common.

3. Why is the "gang" so important to Johnny?

He relies on them like family, because his father abuses him and his mother ignores him.

4. Do you think Darry loves Pony? Why does he treat Pony the way he does?

Yes, he does love Pony. He is hard on Pony because he doesn't want him to get in trouble because then the boys would be split up. He wants Pony to have a good life.

5. Explain what Pony means when he says, "I lie to myself all the time". Why do you think people lie to themselves?

He tries to convince himself something is truth. For example, he tries to convince himself that he doesn't care that Darry doesn't love him, but he does care whether or not Darry loves him.

Chapter 2

1. Who are Cherry and Marcia?

Two Socy girls Pony and Johnny picked up at the drive-in.

2. Why is it strange that Cherry and Pony get along so well?

Socs and Greasers shouldn't get along, but Cherry and Pony have a lot in common - sunsets, dreamers, school.

3. According to Two-Bit, what is a "fair fight"? Why don't Socs fight fair?

Harper's Young People ,1895 **Harper's Round Table** ,1895 *The Pope and the New Era* William Thomas Stead,1890 *The Epworth Herald* ,1902 [Global Legitimacy Crises](#) Thomas Sommerer, Hans Agné, Fariborz Zelli, Bart Bes, 2022-07-14 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations

Global Legitimacy Crises addresses the consequences of legitimacy in global governance in particular asking when and how do legitimacy crises affect international organizations and their capacity to rule The book starts with a new conceptualization of legitimacy crisis that looks at public challenges from a variety of actors Based on this conceptualization it applies a mixed methods approach to identify and examine legitimacy crises starting with a quantitative analysis of mass media data on challenges of a sample of 32 IOs It shows that some but not all organizations have experienced legitimacy crises spread over several decades from 1985 to 2020 Following this the book presents a qualitative study to further examine legitimacy crises of two selected case studies the WTO and the UNFCCC Whereas earlier research assumed that legitimacy crises have negative consequences the book introduces a theoretical framework that privileges the activation inherent in a legitimacy crisis It holds that this activation may not only harm an IO but could also strengthen it in terms of its material institutional and decision making capacity The following statistical analysis shows that whether a crisis has predominantly negative or positive effects depends on a variety of factors These include the specific audience whose challenges define a certain crisis and several institutional properties of the targeted organization The ensuing in depth analysis of the WTO and the UNFCCC further reveals how legitimacy crises and both positive and negative consequences are interlinked and that effects of crises are sometimes even

visible beyond the organizational borders
