Joyce Collection is vast spanning the full range of Joyce's writing career from 1900 to 1940 from his Epiphanies to possible revisions for *Finnegans Wake*. Dr Spielberg's work in compiling the present catalogue of Joyce's own writings and letters in the collection now provides for Joyceans a guide to what up until now has been mainly uncharted territory. The manuscripts, workbooks, notebooks, sketches, schemas, notes, early and late drafts, fair copies, typescripts, galley and page proofs, errata, translations and letters have been divided into ten major categories: Epiphanies, A Portrait of the Artist as a Young Man, Exiles, Verses, Ulysses, *Finnegans Wake*, Criticism, Notebooks, Miscellaneous Manuscripts and Letters from Joyce. Each item has been described and identified following a uniform format for the pertaining facts: title, collation, pagination, contents, other markings, dating, publication and notes. In his introduction to the catalogue, the author describes the Buffalo Joyce Collection itself, giving the history of its growth, its extent and holdings. In discussing the manuscripts, he calls particular attention to the *Finnegans Wake* Workbooks MSS VI A, B, C and D, which he comments are probably the strangest manuscripts in existence, even for so strange a book as *Finnegans Wake*. The apparent disorder and lack of organization of these workbooks is a false impression. Where the reader of the workbooks stumbles and bombinates through what seems to be utter blackness, Joyce danced and skipped with ease. What to us seems chaos was neatness and method to Joyce. It is Dr Spielberg's hope that the manuscripts he has catalogued will, when examined in detail, offer a key to the better understanding of the hides and hints and misses in prints in the writings of the most controversial figure of twentieth century literature.
