Catechism II Carol Simpson, 2011-09-12 This book contains valid real world copyright questions posed by real life educators all answered by a knowledgeable and experienced school attorney For close to a decade author Carol Simpson fielded and answered inquiries for the Copyright Questions of the Month column for Library Media Connection The questions and answers of this book are gleaned from the myriad copyright questions submitted to her by actual educators in the field addressing the unique copyright issues in schools The information in Copyright Catechism II Practical Answers to Everyday School Dilemmas will be invaluable to K 12 educators of all types but especially librarians technology specialists and school administrators without time to study copyright law in depth The topics covered represent the complex and potentially confusing issues that active K 12 educators encounter in their daily work **Streaming and Copyright Law** Lasantha

Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right

of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part. Conversely the fair dealing defence in Australia cannot be used aptly to defend end users' acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review, news reporting, parody or satire or research or study. When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content's infringing nature. Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking. End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement. Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users' access to digital content. This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions.

Copyright Law in the Digital World Manoj Kumar Sinha, Vandana Mahalwar, 2017-03-06. This book addresses the key issues, challenges and implications arising out of changes in the copyright law and corresponding judicial responses. Using concrete examples the book does not assume any prior knowledge of copyright law but brings together leading intellectual property researchers to consider the significant role of copyright law in shaping the needs of the modern digital world. It provides an insight into two distinct arenas: copyright and digital media. The exponential increase in the ability to multiply and disseminate information by digital means has sparked numerous conflicts pertaining to copyright and in turn has prompted lawmakers to expand the scope of copyright protection in the digital age. Bearing in mind the new questions that the advent of the digital age has raised on the role and function of copyright the book presents a collection of papers largely covering new frontiers and changing horizons especially in this area. The contributions intensively address core issues including the exhaustion principle, copyright and digital media liability of hosting service providers, the originality requirement, accessibility to published works for the visually disabled, criminalization of copyright infringement and software protection under copyright law among others. Consisting of 14 papers this book will be equally interesting to researchers, policymakers, practitioners and lawmakers especially those active in the field of Intellectual Property Rights (IPR).

Copyright for Schools Carol Simpson, Sara E. Wolf, 2021-01-12. Copyright for Schools makes legal concepts related to U S copyright law understandable to educators. A staple on reference shelves it has now been updated with new court rulings and technology applications. This updated edition of Copyright for Schools explains U S copyright law as it applies to education settings clearly and concisely for teachers and school librarians. Topics new to this edition include copyright implications related to the use of such streaming services as Netflix™ and Pandora™, links to online tools that teachers can

use to assist them in making their own daily decisions regarding the use of copyrighted materials and implications relating to the use of anonymous internet publishing tools such as Snapchat™ and use of Cloud based sharing Other new topics include issues related to disability how to appropriately respond to cease and desist letters and other legal inquiries implications of the Music Modernization Act and expanded discussion of open resources such as Creative Commons licenses This edition also adds a concordance in a Scope and Sequence table format so all information related to U S copyright knowledge is accessible no matter where it resides within the text and provides links to online tools and resources that can be used to guide users of copyrighted materials in making decisions about how to use them Still included are the real world applications and the Q A sidebars from prior editions

The State of Copyright Debora Halbert, 2014-02-05 This book seeks to make an intervention into the ongoing debate about the scope and intensity of global copyright laws While mapping out the primary actors in the context of globalization and the modern political economy of information ownership the argument is made that alternatives to further expansion of copyright are necessary By examining the multiple and competing interests in creating the legal regime of copyright law this book attempts to map the political economy of copyright in the information age critique the concentration of ownership that is intrinsic in the status quo and provide an assessment of the state of the contemporary global copyright landscape and its futures It draws upon the current narratives of copyright as produced by corporate government and political actors and frames these narratives as language games within a global political project to define how information and culture will be shared and exchanged in the future The text problematizes the relationship of the state to culture comments on the global flows of culture and critiques the regulatory apparatus that is in place to commodify culture and align it with the contemporary nation state In the end the possibility of non commodified and more open futures are explored The State of Copyright will be of particular interest for students and scholars of international political economy law political science anthropology sociology cultural studies library sciences and communication studies It also will appeal to a growing popular audience that has taken an interest in the issues of copyright

United States Congressional Serial Set, Serial No. 14979, House Reports Nos. 32-66 , Access to Knowledge for Consumers: Reports of Campaigns and Research 2008-2010 , 2010 Information Program grantee Consumers International has released the results of a global survey designed to expose the obstacles consumers face in gaining access to education and cultural materials The survey was conducted in 13 languages covering 15 000 consumers across 24 countries The survey found that The biggest barriers that consumers face in accessing copyright works are those created by copyright law Even so consumers around the world will choose original copyright works over pirated copies provided that they are available at an affordable price While borrowing

from libraries and other cultural institutions provided a viable alternative for some consumers priced out of original copyrighted works the survey found that particularly in developing countries access to libraries is limited and the works they carry are few Although the authors of the survey saw copyleft initiatives like Open Educational Resources and Free and Open Source Software as great ways to help consumers vault access barriers they concluded that governments needed to act to address consumers needs for lower cost original materials to buy borrow and access online The survey forms the first two chapters of Consumers International s new report Access to Knowledge for Consumers Reports of Campaigns and Research 2008 2010 Publisher description

Infringement Nation John Tehranian,2011-03-31 Written on the occasion of copyright s 300th anniversary John Tehranian s *Infringement Nation* presents an engaging and accessible analysis of the history and evolution of copyright law and its profound impact on the lives of ordinary individuals in the twenty first century Organized around the trope of the individual in five different copyright related contexts as an infringer transformer pure user creator and reformer the book charts the changing contours of our copyright regime and assesses its vitality in the digital age In the process Tehranian questions some of our most basic assumptions about copyright law by highlighting the unseemly amount of infringement liability an average person rings up in a single day the counterintuitive role of the fair use doctrine in radically expanding the copyright monopoly the important expressive interests at play in even the unauthorized use of copyright works the surprisingly low level of protection that American copyright law grants many

creators and the broader political import of copyright law on the exertion of social regulation and control Drawing upon both theory and the author's own experiences representing clients in various high profile copyright infringement suits Tehranian supports his arguments with a rich array of diverse examples crossing various subject matters from the unusual origins of Nirvana's Smells Like Teen Spirit the question of numeracy among Amazonian hunter gatherers the history of stand offs at papal nunciatures and the tradition of judicial plagiarism to contemplations on Slash's criminal record Barbie's retrouss nose the poisonous tomato flag burning music as a form of torture the smell of rotting film William Shakespeare as a man of the people Charles Dickens as a lobbyist Ashley Wilkes's sexual orientation Captain Kirk's reincarnation and Holden Caulfield's maturation In the end Infringement Nation makes a sophisticated yet lucid case for reform of existing doctrine and the development of a copyright 2 0
