China's Provinces and the Belt and Road Initiative Dominik Mierzejewski, 2021-03-30 This book discusses the Belt and Road Initiative at the provincial level in China It analyses the evolution of the role of local governments in Chinese foreign policy since the opening of China's economy in 1978 showing how the provinces initially competed with each other and how the central government was forced to react developing more centralised policies Unlike other books on the Belt and Road Initiative which focus on the international aspects of the initiative this book demonstrates the importance of the Belt and Road in reinforcing China's unitary status and for managing and coordinating development at the local level as well as centre province relations and province to province relations inside China

**Recalibrating teacher training in African higher education institutions** Sifiso Sibanda, Gideon (Deon) P. van Tonder, Washington T. Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark

*Assembly Codes* Matthew Hockenberry, Nicole Starosielski, Susan Zieger, 2021-08-02 The contributors to *Assembly Codes* examine how media and logistics set the conditions for the circulation of information and culture They document how logistics the techniques of organizing and coordinating the movement of materials bodies and information has substantially impacted the production distribution and consumption of media At the same time physical media such as paperwork along with media technologies ranging from phone systems to software are central to the operations of logistics The contributors interrogate topics ranging from the logistics of film production and the construction of internet infrastructure to the environmental impact of the creation distribution and sale of vinyl records They also reveal how logistical technologies have generated new aesthetic and performative practices In charting the specific points of contact dependence and friction between media and logistics *Assembly Codes* demonstrates that media and logistics are co constitutive and that one cannot be understood apart from the other Contributors Ebony Coletu Kay Dickinson Stefano Harney Matthew Hockenberry Tung Hui Hu Shannon Mattern Fred Moten Michael Palm Ned Rossiter Nicole Starosielski Liam Cole Young Susan Zieger

*Higher Education - Reflections From the Field - Volume 1*, 2023-11-02

COVID wrought havoc on the world's economic systems. Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems. Some institutions were prepared for the required transition to online learning. Most were not. Whether prepared or not, educators rose to the challenge. The innovativeness of educators met the challenges as digital learning replaced the face-to-face environment. In fact, some of the distance models proved so engaging that many students no longer desire a return to the face-to-face model. As with all transitions, some things were lost while others were gained. This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century. The book is organized into four sections: on The Perspectives of Higher Education, COVID as a Catalyst for Change, Embracing Online Learning as a Response to COVID, and Post-Covid: The Way Forward. It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process. These discussions shed light on the impact of the pandemic and the future of higher education post-COVID. Higher education has been forever changed, and higher education as it once was may never return. While many questions arise, the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic.

*Business History of Hospitals in the 20th Century* Paloma Fernández Pérez, 2024-06-14. This book offers a business history of modern hospitals in the 20th century. Presenting case studies from around the world, it examines the long-term institutional and historical evolution of hospital organization and management models, applying a business history approach to do so. Drawing on reports from international organizations and other historical data, it explores the evolution path, dependencies, actors, and institutions that have shaped the diversity of hospital organization and management models. At the same time, it analyzes the historical origins of major problems faced by today's hospitals, such as cost inefficiencies, lack of specialized human capital, etc. The contributing authors cover topics such as the history of hospital finance and accounting, hospital price regulation, entrepreneurship models, hospital privatization, and hospital governance. The book will appeal to scholars and students of economic and business history and to anyone interested in the history of hospitals.

**The Changing Space Economy of City-Regions** Koech Cheruiyot, 2017-10-30. This book addresses the South African Space Economy and its stark disparities and dualisms through an assessment of the Gauteng City Region, the largest economic agglomeration in the country and on a continent bedevilled by a myriad of development challenges. The book's focus is on understanding the overall character of Gauteng City Region's Space Economy through data mining analysis and mapping.

comprehensively supplements the Space Economy literature on the region. It covers the disparities exacerbated by an overlay of apartheid planning ideology and top down regional development based on selective encouragement of manufacturing investments in growth points or poles and how implementation of past policies intended to cure these disparities have yielded mixed results. This book further offers the Gauteng City Region as a microcosm of the national economy in the form of evident significant place based variations in the intensity and character of economic structure that on the one hand enjoys massive agglomeration economies while on the other has high levels of poverty and large numbers of people living below the Minimum Living Level. This book should appeal to urban studies specialists, economists and development studies researchers in the Global South.

**The Geography of Central Asia** Igor Jelen, Angelija Bučienė, Francesco Chiavon, Tommaso Silvestri, Katie Louise Forrest, 2021-03-01. This book provides a profound geographical description and analysis of Central Asia. The authors take a synthetic approach in a period of critical transformation in the post soviet time. The monograph analyzes comprehensively the physical and human geography as well as human nature interactions of Central Asia with focus on Kazakhstan, Uzbekistan, Turkmenistan, Kyrgyzstan and Tajikistan. Natural processes are described at a systemic scale focusing on ecological impacts and consequences and contemporary human adaptations and organization. It also discusses in which ways the human organizations try to apply solutions for their needs such as security, territorial management and resources, renewability, material and functional needs, identity, elaborations, culture and communication. **The Geography of Central Asia** appeals to scientists and students of regional geography and interested academics from other areas such as social, political, economic and environmental studies within the context of Central Asia. The book is also a very useful resource for field trips into this area.

**The Oxford Handbook of Nigerian History** Toyin Falola, Matthew M. Heaton, 2022. Thirty six chapters covering the history of Nigeria from prehistoric times to the twenty first century. Accessible overviews of both the political narrative as well as the deeper histories of social organization, identity formation and inter group relationships. Cutting edge analysis of key themes from highly respected scholars in a single forward facing volume. Book jacket.

**Drones for Biodiversity Conservation and Ecological Monitoring** Ricardo Díaz-Delgado, Sander Múcher, 2019-12-18. Unmanned aerial vehicles (UAV) have already become an affordable and cost efficient tool to quickly map a targeted area for many emerging applications in the arena of ecological monitoring and biodiversity conservation. Managers, owners, companies and scientists are using professional drones equipped with high resolution visible, multispectral or thermal cameras to assess the state of ecosystems, the effect of disturbances or the dynamics and changes within biological communities inter alia. We are now at a tipping point on the use of drones for these type of applications over natural areas. UAV missions are increasing but most of them are testing applicability. It is time now to move to frequent revisiting missions aiding in the retrieval of important biophysical parameters in ecosystems or mapping species distributions. This Special Issue shows UAV applications contributing to a better understanding of biodiversity and ecosystem status, threats, changes and trends. It documents the

enhancement of knowledge in ecological integrity parameters mapping long term ecological monitoring based on drones mapping of alien species spread and distribution upscaling ecological variables from drone to satellite images methods and approaches rapid risk and disturbance assessment using drones mapping albedo with UAVs wildlife tracking bird colony and chimpanzee nest mapping habitat mapping and monitoring and a review on drones for conservation in protected areas
