Managing Digital Records in Africa Mpho Ngoepe, 2022-05-23 Managing Digital Records in Africa draws on the research work of the InterPARES Trust ITrust project that investigated interrelated archival issues focusing on legal analysis infrastructure trust authentication and education within the African context This research focused book provides a legal analysis and systematic assessment of how African institutions manage digital records in four countries i e Botswana Kenya South Africa and Zimbabwe It also examines the extent to which records are managed using Internet based applications trust in such records and digital record authentication to support the auditing process Finally it provides a curriculum analysis in digital records at institutions of higher learning in 38 African countries The book s case studies illustrate the threads of discussion which span the ITrust domains of legislation infrastructure authentication trust and education in archives and records management The book can be used as a premier reference source by private and public organizations researchers educators archivists records managers and postgraduate students to make informed decisions about digital records records management systems cloud based services authenticating records and identifying universities on the continent that offer archival programmes The book may also find expression to practitioners in other fields such as law and auditing *Method, Substance, and the Future of African Philosophy* Edwin E. Etieyibo, 2018-02-24 This book takes stock of the strides made to date in African philosophy Authors focus on four important aspects of African philosophy the history methodological debates substantive issues in the field and direction for the future By collating this anthology Edwin E Etieyibo excavates both current and primordial knowledge in African philosophy enhancing the development of this growing field **Knowledge for a Sustainable World** Tor Halvorsen, Hilde Ibsen, 2015-12-07 The search for answers to the issue of global sustainability has become increasingly urgent In the context of higher education many universities and academics are seeking new insights that can shift our dependence on ways of living that rely on the exploitation of so many and the degradation of so much of our planet This is the vision that drives SANORD and many of the researchers and institutions within its network Although much of the research is on a relatively small scale the vision is steadily gaining momentum forging dynamic collaborations and pathways to new knowledge The contributors to this book cover a variety of subject areas and offer fresh insights about chronically under researched parts of the world Others document and critically reflect on innovative approaches to cross continental teaching and research collaborations This book will be of interest to anyone involved in the transformation of higher education or the practicalities of cross continental and cross disciplinary academic collaboration The Southern African Nordic Centre SANORD is a network of higher education institutions from Denmark Finland Iceland Norway Sweden Botswana Namibia Malawi South Africa Zambia and Zimbabwe Universities in the southern African and Nordic regions that are not yet members are encouraged to join **Handbook of Research on Promoting Global Citizenship Education** Keengwe, Jared, 2022-02-18 A global citizen is an individual who believes in a public responsibility for their local community

to grow and interconnect amongst the world's diverse people and things Global citizenship education is a fast moving process that continues to intertwine communities all over the world As we move toward a more global world the improvement in education health poverty rates and standard of living should come with it This global world must be a place where people are aware of what is going on and can have an impact as well The Handbook of Research on Promoting Global Citizenship Education explores various ways to empower educators to design and implement a curriculum that incorporates global citizen education Covering a range of topics such as global issues and academic migration this major reference work is ideal for academicians industry professionals policymakers researchers scholars instructors and students **Bridging the**

Knowledge Divide Stewart Marshall, Wanjira Kinuthia, Wallace Taylor, 2009-04-01 In many international settings developing economies are in danger of declining as the digital divide becomes the knowledge divide This decline attacks the very fabric of cohesion and purpose for these regional societies delivering increased social health economic and sustainability problems The examples in this book will provide leaders policy developers researchers students and community with successful strategies and principles of ICT use in education to address these needs This book will discuss how educational technology can be used to transform education and assist developing communities to close the knowledge divide It will provide comprehensive coverage of educational technology in development in different professions and parts of world The book will provide examples of best practice case studies and principles for educators community leaders researchers and policy advisers on the use of educational technology for development In particular it will provide examples of how education can be provided more flexibly in order to provide access to hitherto disadvantaged communities and individuals Handbook of Research on Transformative and Innovative Pedagogies in Education Keengwe, Jared, 2022-05-13 Various pedagogies such as the use of digital learning in education have been used and researched for decades but many schools have little to show for these initiatives This contrasts starkly with technology supported initiatives in other fields such as business and healthcare Traditional pedagogies and general digital technology applications have yet to impact education in a significant way that transforms learning A primary reason for this minimal impact on learning is that digital technologies have attempted to make traditional instructional processes more efficient rather than using a more appropriate paradigm for learning As such it is important to look at digital technology as a partner and use transformative applications to become partners with students not teachers to empower their learning process both in and out of school The Handbook of Research on Transformative and Innovative Pedagogies in Education is a comprehensive reference that identifies and justifies the paradigm of transformative learning and pedagogies in education It provides exemplars of existing transformative applications that if used as partners to empower student learning have the potential to dramatically engage students in a type of learning that better fits 21st century learners Covering topics such as gamification project based learning and professional development this major reference work is an essential resource for pre service and in service teachers educational technologists instructional
