**The First Global Integrated Marine Assessment** United Nations, 2017-04-17 The World Ocean Assessment or to give its full title The First Global Integrated Marine Assessment is the outcome of the first cycle of the United Nations Regular Process for Global Reporting and Assessment of the State of the Marine Environment including Socioeconomic Aspects The Assessment provides vital scientifically grounded bases for the consideration of ocean issues including climate change by governments intergovernmental agencies non governmental agencies and all other stakeholders and policymakers involved in ocean affairs Together with future assessments and related initiatives it will support the implementation of the recently adopted 2030 Agenda for Sustainable Development particularly its ocean related goals Moreover it will also form an important reference text for marine science courses

**The UN Convention on the Rights of Persons with Disabilities in Practice** Lisa Waddington, Anna Lawson, 2018-05-24 Introduced in 2008 the UN Convention on the Rights of Persons with Disabilities has existed for nearly a decade This comprehensive study examines how courts in thirteen different jurisdictions make use of the Convention The first sustained comparative international law analysis of the CRPD Waddington and Lawsons ground breaking text illuminates the intersection between human rights law disability law and international law through an examination of the role of courts The first part of the book contains chapters specific to each jurisdiction The second part consists of comparative chapters which draw on the rich analysis of the jurisdiction specific chapters These chapters reflect on emerging patterns of judicial usage and interpretation of the CRPD and on the wider implications for human rights theory and the nascent field of international comparative human rights law This volume is a vital and thought provoking addition to the literature on comparative international law and disability rights

*Contemporary Europe* William Outhwaite, 2016-10-04 Europe is one of the most dynamic and interesting areas of the world pioneering in the European Union a new form of governance for half a billion people represented in the world s first directly elected transnational parliament This book situates the European Union in a broader European global historical and geographical context providing a readable presentation of the most important facts and drawing on the theoretical approaches which have transformed the study of contemporary Europe over the past two decades The European Union is still on the road to what has been called an unknown destination and this book presents its economic political legal and social trajectory from the middle of the last century to the present Contemporary Europe covers some of these issues in an interdisciplinary framework aiming to situate the development of the European Union in a broader context of pan European and global processes Europe has been cut down to size but it does not have to become a global backwater and the study of contemporary Europe s institutional reality does not have to be boring The book counter this misperception conveying the essential facts and theories of contemporary European reality in a clear and approachable analysis It will serve as a readable introduction both to the academic field of European studies and to contemporary Europe itself

**Save and Grow in practice: maize, rice, wheat** Food and Agriculture

Organization of the United Nations,2018-06-21 FAO s best selling 2011 publication Save and Grow proposed a new paradigm of agriculture one that is both highly productive and environmentally sustainable This new book looks at the application of Save and Grow practices and technologies to production of the world s key food security crops maize rice and wheat With examples drawn from developing countries worldwide it shows how eco friendly farming systems are helping smallholder producers to boost cereal yields improve their incomes and livelihoods conserve natural resources reduce negative impacts on the environment and build resilience to climate change The book will be a valuable reference for policymakers and development practitioners guiding the transition to sustainable food and agriculture     **Advances in Taxation** John

Hasseldine,2020-12-09 This volume explores the latest issues in tax and taxation theory including empirical studies using research methods from different institutional settings and contexts It is essential reading for anyone interested in tax policy and its impact in practice     **Under the Sea: Archaeology and Palaeolandscapes of the Continental Shelf** Geoffrey N.

Bailey,Jan Harff,Dimitris Sakellariou,2017-05-16 This book focuses on issues of method and interpretation in studies of submerged landscapes concentrating on illustrations and case studies from around Europe with additional examples from other parts of the world Such landscapes were once exposed as dry land during the low sea levels that prevailed during the glacial periods that occupied most of the past million years and provided extensive new territories for human exploitation Their study today involves underwater investigation using techniques and strategies which are clearly set out in these chapters The underwater landscape provides a rich source of information about the archaeology of human settlement and long term changes in environment climate and sea level This book highlights how such information can be revealed and interpreted The examples presented here and the focus on techniques make this book of worldwide relevance Chapters describe examples of underwater archaeological investigation as well as collaboration with offshore industries and legal management and training issues relating to underwater cultural heritage Such studies point to the significance of this drowned landscape and readers are invited to consider its human impact in terms of past settlement and population dispersal through palaeolandscape reconstruction and interpretation in relation to broader themes in human prehistory This volume is based on work from COST Action SPLASHCOS a four year multi disciplinary and multi national research program supported by COST European Cooperation in Science and Technology and has something to benefit all those with an interest in the sea floor of the continental shelf and the archaeological and social impact of sea level change including archaeologists marine scientists geographers cultural heritage managers commercial and governmental organisations policy makers and interested members of the public     **Proceedings of AC 2018 in Prague** Group of Authors,2018-08-07 International Academic

Smit, Amos T. Thebenyane, Andre van der Bijl, Johannes (Hannes) L. van der Walt, 2019-12-12 This book is a collection of chapters based on original research dealing with issues of discipline and disciplinary practices in educational institutions. The aim of the book is to provide a scholarly and scientific perspective on the current state of discipline and disciplinary practices in schools and tertiary education settings. The issue of discipline is investigated from diverse paradigmatic and methodological perspectives presenting empirical as well as also philosophical research. The empirical perspective includes quantitative, positivistic, qualitative, interpretive and mixed methods, pragmatic designs and worldviews. This book offers a ground breaking contribution to the field of learner and student discipline with insights into disciplinary practices and issues in educational institutions not hitherto researched such as Technical Vocational Education and Training colleges and universities.

**A Scholarship of Doctoral Education** Petro du Preez, Shan Simmonds, 2018-11-21 This edited collection is cohesive by a focus on becoming a doctoral student, becoming a researcher, becoming an academic and becoming a supervisor. This journey of becoming takes us from pre enrolment in a doctoral programme through the many phases of candidature and into the post doctoral environment. Both advancing theory and providing very practical examples, this book is of immense value to doctoral students and academics not only in South Africa for whom it should be a mandatory read but also for doctoral education researchers, doctoral students and supervisors worldwide as the themes covered extend well beyond the borders of South Africa.

**The MEDEX Northwest Physician Assistant Program** Ruth Ballweg MPA PA-C, 2016-02-29 The MEDEX Northwest Physician Assistant Program was created at the University of Washington in 1968 as one of the nation's first physician assistant PA programs. A joint project of the Washington State Medical Association and the University of Washington School of Medicine, MEDEX was designed to meet the needs of overworked physicians in rural communities. As envisioned by MEDEX founder Dr Richard A Smith, Physician Assistants were created by physicians for physicians. Initially all MEDEX students were former military corpsmen returning from Vietnam. Based on their extensive clinical experience, they were well accepted by doctors and their patients. Dr Richard Smith was a former Peace Corps physician and leader of the federal project to desegregate the US hospital system as a requirement for Medicare reimbursement. Dr Smith's founding principles for MEDEX included a collaborative model for community and practitioner involvement, the framework for the MEDEX Program throughout its 45 year history.

*The Fortress Kingdom* Paul Hill, 2022-10-21 In this, the second part of his four volume military and political history of the Anglo Saxon kingdom, Paul Hill follows the careers of the first Alfred the Great's eldest daughter and Edward the Elder Alfred's eldest son as they campaigned to expand their rule after Alfred's death. They faced as Alfred had done the full force of Danish hostility during the early years of the tenth century, a period of unrelenting turbulence and open warfare. But through their military strength, in particular their strategy of fortress building, they retained their hold on the kingdom and conquered lands which had been

under Danish lords for generations the fl d s forces captured Derby and Leicester by both force and diplomacy Edward s power was always immense How each of them used forts burhs to hold territory is explored Fortifications across central England became key These included Bridgnorth Tamworth Stafford Warwick Chirbury and Runcorn the fl d and also Hertford Witham Buckingham Bedford and Maldon Edward to name a few Paul Hill s absorbing narrative incorporates the latest theories and evidence for the military organization and capabilities of the Anglo Saxons and their Danish adversaries His book gives the reader a detailed and dramatic insight into a very sophisticated Anglo Saxon kingdom

*The European Neighbourhood Policy in a Comparative Perspective* Sieglinde Gstohl, 2016-07-22 The European Neighbourhood Policy ENP has evolved into one of the European Union s major foreign policy instruments and received considerable attention However other EU neighbourhood policies and their relevance for the ENP also require examination The Arab uprisings civil wars in Libya and Syria the continuing Israeli Palestinian conflict the crisis in Ukraine and Russia s annexation of the Crimean peninsula have all brought the institutional design and tools of the ENP into question and a comparative perspective is crucial to understand EU neighbourhood policies in a wider sense This timely book puts the ENP into context by exploring the major challenges and key lessons of the EU s other policy frameworks with neighbouring countries Mapping the EU s bi lateral and multilateral neighbourhood relations in comparison to the ENP and investigating the major challenges faced it provides a comprehensive up to date view of the EU s relations with its neighbours Focusing on current affairs and future challenges the comparison with the ENP and the lessons to be drawn generate novel insights into the EU s closest external relations This book will be of key interest to students and scholars studying European Politics policies and comparative politics

**Air Pollution XXV** D. Almorza Gomar, J.W.S. Longhurst, C.A. Brebbia, J. Barnes, 2017-08-07 Encompassing papers presented at the 25th International Conference on Modelling Monitoring and Management of Air Pollution this book is the latest from a successful conference series International academics and air pollution experts address various aspects of air pollution and provide an insight into the science and policy frameworks The management of air pollution is one of the most challenging problems facing the international community The need to balance concern for the environment with the demand for generating economic growth makes air pollution a particularly challenging issue requiring global attention and cooperation Science can help us identify the nature and scale of air pollution impacts and it has become essential in guiding government decisions regarding the most appropriate and effective regulations This book presents advances in our knowledge of the science of air pollution The Air Pollution series of conferences has consistently recognised that science remains the key to identifying the nature and scale of air pollution impacts and reaffirmed that science is essential in the formulation of policy relevant information for regulatory decision making The conference series also acknowledged at a very early stage that science alone will not improve a polluted atmosphere Scientific knowledge derived from well designed studies needs to be allied with additional technical and economic studies in order to ensure cost effective and efficient

mitigation Leading research originating all over the world is included and covers the subsequent topics Air pollution modelling Monitoring and measuring Air quality management Indoor air pollution Aerosols and particles Industrial and travel emissions Exposure and health effects Economics of air pollution control Innovative technologies Challenges for the future Strategic and project assessment Green technologies and techniques Stationary and mobile emissions Social economic issues Environmental impact assessment Air pollution and climate change Air quality forecasting      **BRICS and International**

**Tax Law** Peter Antony Wilson, 2016-04-24 With the ongoing expansion of outbound foreign direct investment FDI in the countries representing the BRICS economic bloc Brazil Russia India China and South Africa and with all of them at the same time listed among the top seven countries plagued by tax evasion and avoidance in the guise of illicit out flows the governments both individually and through cooperative initiatives have devised new international tax strategies that are proving to be of great interest and value to other countries both developing and developed The core of these strategies addresses the necessity of stemming the out flow of revenue while strongly supporting FDI both inbound and outbound while complying with international obligations including those arising from human rights laws This book is the first in depth commentary on this new and evolving area of international tax law The detailed analysis covers the entire field of BRICS international tax law considering topics such as the following information exchange procedures and pitfalls response to the OECD's Base Erosion and Profit Sharing BEPS initiative role of bilateral and multilateral double taxation conventions including the Multilateral Instrument and the Bilateral Investment Treaties thin capitalization transfer pricing controlled foreign corporation rules shortcomings related to authorities limited manpower international audit and investigation procedures the BRICS approach to residence and mandatory and binding arbitration and the BRICS approach to shaping the developing world's international tax system Notably the author personally conducted interviews with senior international representatives of the BRICS tax authorities as well as with leading BRICS academics and practitioners Tax cases together with human rights and investment cases and administrative guidelines in all five countries are also included in the analysis The study concludes with recommendations for improving each of the five countries tax law and procedures especially in the area of dispute resolution The author's goal is to extend the existing body of knowledge of the BRICS international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance an approach which facilitates both outbound and inbound FDI simplifies tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty In achieving this objective the author has produced a major work that is of immeasurable value to tax advisers government and governance officials academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities      **Rock Mechanics and Rock Engineering: From the Past to the Future** Reşat Ulusay, 2016-11-18 Rock Mechanics and Rock Engineering From the Past to the Future contains the contributions presented at EUROCK2016 the 2016 International Symposium of the

International Society for Rock Mechanics ISRM 2016 rg p Cappadocia Region Turkey 29 31 August 2016 The contributions cover almost all aspects of rock mechanics and rock engineering from theories to engineering practices emphasizing the future direction of rock engineering technologies The 204 accepted papers and eight keynote papers are grouped into several main sections Fundamental rock mechanics Rock properties and experimental rock mechanics Analytical and numerical methods in rock engineering Stability of slopes in civil and mining engineering Design methodologies and analysis Rock dynamics rock mechanics and rock engineering at historical sites and monuments Underground excavations in civil and mining engineering Coupled processes in rock mass for underground storage and waste disposal Rock mass characterization Petroleum geomechanics Carbon dioxide sequestration Instrumentation monitoring in rock engineering and back analysis Risk management and the 2016 Rocha Medal Lecture and the 2016 Franklin Lecture Rock Mechanics and Rock Engineering From the Past to the Future will be of interest to researchers and professionals involved in the various branches of rock mechanics and rock engineering EUROCK 2016 organized by the Turkish National Society for Rock Mechanics is a continuation of the successful series of ISRM symposia in Europe which began in 1992 in Chester UK

**Engineering Standards for Forensic Application** Richard W. McLay, Robert N. Anderson, 2018-09-14 Engineering Standards for Forensic Application presents the technologies and law precedents for the application of engineering standards to forensic opinions discussing Fundamentals Disciplines Engineering Standards The Basics and the Future of Forensics The book explores the engineering standard and how it is used by experts to give opinions that are introduced into evidence and how they are assumed to be the best evidence known on the topic at hand Final sections include coverage of NFL Brain Injuries and the Flint Water Crisis Examples of the use of engineering standards are shown and discussed throughout the work Addresses a wide variety of forensic engineering areas including relevant law Provides a new approach of study that includes the work of both engineers and litigators Contains contributions from over 40 experts offering the reader examples of general forensic methods that are based on reliable engineering practice

**Artificial Intelligence and Sustainable Computing** Manjaree Pandit, M. K. Gaur, Sandeep Kumar, 2023-09-23 This book presents high quality research papers presented at 4th International Conference on Sustainable and Innovative Solutions for Current Challenges in Engineering and Technology ICSISCET 2022 held at Madhav Institute of Technology Science MITS Gwalior India from November 19 to 20 2022 The book extensively covers recent research in artificial intelligence AI that knit together nature inspired algorithms evolutionary computing fuzzy systems computational intelligence machine learning deep learning etc which is very useful while dealing with real problems due to their model free structure learning ability and flexible approach These techniques mimic human thinking and decision making abilities to produce systems that are intelligent efficient cost effective and fast The book provides a friendly and informative treatment of the topics which makes this book an ideal reference for both beginners and experienced researchers

**Chinese Insurance Contracts** Zhen Jing, 2016-11-25 Chinese Insurance

Contracts Law and Practice is the first systematic text written in English on the law of insurance in China. This book offers a critical analysis of the major principles, doctrines and concepts of insurance contract law in China. At every point the analysis discusses the principles of the Insurance Law in detail, referring where appropriate to decided cases and also drawing attention to external influences. Readers are guided through the complexities of Chinese law in a clear and comprehensive fashion and significantly in a manner that is accessible and meaningful for those used to a common law system. This book presents a comprehensive picture of Chinese insurance contract law to facilitate a wider understanding of the relevant rules of law. Elements of insurance contract law are critically examined. In addition, this book presents rules of law on some special types of insurance contract such as life insurance, property insurance, liability insurance, motor vehicle insurance, reinsurance and marine insurance. The deficiencies and shortcomings of the law and practice will be identified and analysed, suggestions and recommendations on how to reform the law will be presented. Chinese Insurance Contracts also offers legal and practical advice to insurance professionals on how to draft clauses to avoid contractual pitfalls. It also uses cases to illustrate the difficulties which can arise in applying the principles in practice. This book will be essential reading for insurance companies and legal practitioners looking to do business in China, as well as reference for Chinese lawyers practising insurance law. It will also be a useful resource for students and academics studying Chinese law.

Environmental Impact Statement for Construction Permit for the Northwest Medical Isotopes Radioisotope Production Facility Final Report Nuclear Regulatory Commission (U S ), 2017-05-16. The U S Nuclear Regulatory Commission (NRC) has prepared this environmental impact statement (EIS) in response to an application submitted by Northwest Medical Isotopes LLC (NWMI) for a construction permit for the NWMI medical radioisotope production facility. The EIS includes the analysis that evaluates the environmental impacts of the proposed action and considers the following alternatives to the proposed action: 1. the no action alternative, i.e. the construction permit is denied; 2. one alternative site; and 3. two alternative technologies. After weighing the environmental, economic, technical and other benefits against environmental and other costs and considering reasonable alternatives, the NRC staff's recommendation, unless safety issues mandate otherwise, is to issue a construction permit to NWMI. The NRC staff based its recommendation on the following factors: the NRC staff's review of the NWMI Environmental Report and responses to requests for additional information; the NRC staff's consultation with Federal, State and local agencies and Tribal officials; the NRC staff's independent environmental review; and the NRC staff's consideration of public comments.
