## **University Of Pretoria October Intake 2015:**

**Supporting Entrepreneurship and Innovation** Janet Crum, Samantha Schmehl Hines, 2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities This volume explores how this has come about looking at libraries from across North America Europe and Africa and helps position readers to better understand what is happening and how this can be brought to further institutions Postgraduate Supervision Magda Fourie-Malherbe, 2016-11-21 The 24 chapters contained in this volume provide diverse but also congruent perspectives on future foci for research into postgraduate education and supervision in the knowledge society The chapters move from deliberations on challenges for postgraduate supervision at macro level such as the pressure to increase postgraduate output and the implications of increasingly managerialist institutions to meso level matters the form and function of postgraduate education in specific countries to the micro rich case studies of individual institutions programmes and supervisors

**South African Schooling: The Enigma of Inequality** Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this

very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI Sustainable Transformation in African Higher Education Felix Maringe,Emmanuel Ojo,2017-04-18 The book is a must read for policy makers academics university administrators and post graduate research students in the broad field of education and in higher education studies in particular The book brings together a wealth of information regarding the imperatives of transformation in Africa s higher education systems Not only do some of the chapters provide critical discussion about the conceptualisation of transformation the majority of the chapters reflect on empirical evidence for transformation in diverse fields of mathematics science gender the training of doctoral students and the governance and management of universities This central theme of sustainable change and reform runs across the chapters of the book For students the book provides exemplars of practical research in higher education For scholars in higher education and policy makers specific issues for reform are identified and discussed **Cultural Impact on Conflict**

**Management in Higher Education** Nancy T. Watson,Lei Xie,Matthew J. Etchells,2018-07-01 Cultural Impact on Conflict Management in Higher Education shares information regarding conflict management and resolution in higher education from a global perspective In this book we introduced many conflict resolution methods from different regions in the world You can borrow some successful strategies and examine the differences and similarities between contexts The book shares a conflict resolution model which may direct the reader to start thinking about addressing and managing conflicts from different levels of organizations This book is a collective work of authors coming from all over the world We chose higher education as the context because it is a place where diverse thoughts perspectives and people come together Because of the potential richness of diversity on a college campus the opportunity for conflicts occurs Managing conflict does not work when there is a one way only approach model for addressing conflict Some conflict resolution encompasses multiple dimensions a one s personal beliefs or beliefs about an issue b an individual s personal history in terms of how the conflict was perceived as something to be discussed or not c work culture of the conflict where if one has a conflict the person or unit is messing up or there is a problem person d the unconscious strategies of face saving trying to maintain one s image present e social hierarchies or relationships and f the diversity dimensions and issues that may be present **Advances in Enterprise**
