Your Potential Chad L. Reyes, 2024-04-09 In *Awaken Your Potential* leadership coach Chad Reyes becomes a type of virtual mentor to help people fulfill their maximum potential to become leaders and then to turn around and help others fulfill their own potential. Today's institutions are facing a serious global crisis that threatens to destroy how we work, live, serve, and play. No, it's not a health or financial crisis; it's a leadership crisis. Organizations around the world are lacking effective, competent leaders who know how to make a significant personal investment in both their organization and the people within it. More importantly, this generation of leaders isn't awakening the untapped potential within their teams. That is a problem, perhaps the problem that leads us into dull, dreary workdays and wholly ineffective, unsatisfying work. It's time to change that. In *Awaken Your Potential: 10 Ways to Unlock Greatness*, entrepreneur, speaker, and leadership coach Chad L. Reyes will guide you in how to make your purpose bigger than your problem, give more than you take from others, separate what you do from who you are, get a valuable return on your failures, fulfill your maximum potential, and unlock the full potential of others. Genuine, authentic leadership that unlocks others' potential is desperately needed in every aspect of society, from our governments to our businesses, educational institutions, civic organizations, youth groups, faith communities, and households. The world needs quality leaders. Leaders aren't born; they're equipped.

Learn to See the Invisible Michael Bremer,2024-10-31 Most improvement consultants say improvement efforts must be led by the CEO and that is certainly ideal But the actual reality is most CEOs do not actively drive guide improvement They want it to happen but they focus most of their energy on other issues According to surveys from Gallup and others the number one reason people say I am not engaged is due to the behaviors of their direct boss Those leaders in the middle of an organization have a tremendous amount of leverage first and second line leaders directly touch 80% of the people in their organization They have a tremendous amount of influence and more power than they might realize This book focuses on that demographic This book describes four key foundations and 25 different actions leaders can practice to become more effective in training their eyes to see things tomorrow that are currently invisible It helps leaders and managers to become better observers of their current reality by practicing getting better at getting better The goal is to get better in the way we lead the way our team performs and the results we accomplish If done in the right way visually posting your improvement targets is the key to driving more personal growth as well as more cross functional collaboration and cooperation in your work activities The most unique aspect of this book is that it suggests leaders use visual tools Visual Leadership is the fourth foundational element the author encourages people to practice The primary purpose of visual performance metrics isn t to make sure things are working well in your department It s to create a thinking environment that makes it easier for multiple departments teams and groups to work together It is relatively easy to come up with performance metrics for your team but what about metrics that help us to work more effectively together Good visual reporting practices create information democracy They eliminate filters that obscure knowledge between layers of management and between departments They help to create an environment that is much more robust and open making it easier to be in touch with the actual reality And perhaps the most exciting of all visual tools can help an individual learn to lead more effectively The power of using visuals in this way is underutilized in most organizations Whatever new behaviors a

leader is trying to accomplish visual reporting can facilitate progress and ensure accountability in developing those new habits
