Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries      **The English in America** John Andrew Doyle,2025-06-26 Reprint of the original first published in 1886 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage      *Conceptualising China through translation* James St. André,2023-11-07 This monograph provides an innovative methodology for investigating how China has been conceptualised historically by tracing the development of four key cultural terms filial piety face fengshui and guanxi between English and Chinese It addresses how specific ideas about what constitutes the uniqueness of Chinese culture influence the ways users of these concepts think about China and themselves Adopting a combination of archival research and mining of electronic databases it documents how the translation process has been bound up in the production of new meaning In uncovering how both sides of the translation process stand to be transformed by it the study demonstrates the dialogic nature of translation and its potential contribution to cross cultural understanding It also aims to develop a foundation on which other area studies might build broader scholarship about global knowledge production and exchange      **A Novel Hope?** Bernard Marcus Woodley,2025-06-13 Christians today are often struggling with many of the same theological problems that Victorians were especially regarding hell and the God of love One answer to these questions found in nineteenth century Britain was the seemingly surprising reappearance of the early Christian eschatological theory of universalism the belief that all of humanity will be saved Even though this re emergence has already been acknowledged by scholars of Victorianism its extent has been widely underestimated This book then aims to describe why universalism became an increasingly viable option in a time of growing religious doubt and especially how it established itself in and with the help of the century s fiction not only in the

more overtly universalist novels of Gaskell and Anne Bronte but also across works ranging from Dickens Gissing Linton and Oliphant all the way to Ward and Wells      **The Saturday Review of Politics, Literature, Science and Art** ,1875
