Description:

Quilts evoke the past –they stimulate our earliest memories of security and comfort and resonate with historical and cultural references. For the first time, the V&A showcases its extensive patchwork and quilt collection in one sumptuously illustrated publication. Major essays by leading textile and quilt historians document the fascinating history of British patchwork and quiltmaking, while individual case studies focus on particularly complex or extraordinary pieces within the collection. Primary sources such as inventories, diaries, letters, and pieces from both private and public collections offer opportunities to reinterpret the personal narratives that document life cycle events such as marriage, childbirth, love, and loss. This book offers a unique opportunity to discover one of the V&A’s most hidden collections. Quilts 1700� includes a comprehensive catalogue, providing a key work of reference for quilters, quilt and textile historians, designers, and anyone interested in the extraordinarily creative and eccentric culture of Great BritainPraise for Quilts 1700-2010:“Quilts 1700�: Hidden Histories, Untold Stories reveals a wealth of information about faic traditions in a sumptuously detailed volume published by the Victoria and Albert (V&A) Museum. and Leslie Marmon Silko The rationale behind juxtaposing two writers coming from diverse cultural contexts originates in the fact that both Kingston and Silko share the experience of historical and cultural marginalization and more importantly devise similar methods of rendering it in creative writing Writing from the perspective of two distinct marginalized groups Kingston and Silko share the view that the official version of national history may be seen as a narrative of misrepresentation and the exclusion of people who either greatly contributed to the building of the country or occupied the territory of the present United States long before its creation In their texts both writers engage in a polemic against a history that using its legitimizing power as a scientific discipline produces and perpetuates stereotypical images of Chinese and Native Americans and more importantly eliminates the two groups from the process of constructing the national narratives of origins that monitor and control the borders of what constitutes American identity Despite apparent differences in cultural and historical contexts Kingston and Silko share an enthusiasm for employing unconventional tools and sources for offering creative reconstructions of a past which had been silenced or repressed UNTOLD HISTORY Bernadine E.
