

UNIVERSITY OF THE WITWATERSRAND, JOHANNESBURG

COAT OF ARMS INTERPRETATION

The design of the University's Coat of Arms portrays the Witwatersrand gold fields in the upper part of the shield as the gold background with an open book representing learning or knowledge superimposed on a cogwheel representing industry.

The wavy bars in the lower part are in silver and represent the Vaal and Limpopo rivers between which the Witwatersrand gold fields occur.

Above the shield is the head of a Kudu, one of South Africa's most powerful and typical antelopes.

The motto, "Scientia et Laboro", may be interpreted as, "Through Knowledge and Work" or "Through Knowledge and Industry".

University Of Witwatersrand Prospectus For 2015:

Global University Rankings and the Mediatization of Higher Education Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities. However, this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research. If they do not participate in the rankings they risk losing public funding, students and donors in an increasingly competitive and globalized environment. This book delves into the influence of journalists, business tycoons and multinational corporations in defining what world class is and how it will be measured. Rankings provide us with a rich study for understanding how universities define, deploy and manage their assets and liabilities in a mediatized, globalized economy.

Places of Privilege, 2018-07-19 *Places of Privilege* examines dynamics of privilege and power in the construction of place in a period of the rapid social transformation of places, borders and boundaries. Drawing on interdisciplinary perspectives, the book examines place as a site for the making and re-making of privilege while considering new meanings of community and examining spaces for cultural identity and resistance. Chapters point to a range of conceptual resources that can be utilised to produce critical analyses of place-making. As the authors point out, power and privilege shape place, but these dynamics are in turn shaped by the specific place-based histories and social dynamics within which they are located. Contributors are Lutfiye Ali, Alison M. Baker, Paola Bilbrough, Tony Birch, Jora Broerse, Sally Clark, Josephine Cornell, Yon Hsu, Lou Iaquinto, Karen Jackson, Shose Kessi, Rebecca Lyons, Chris McConville, Nicole Oke, Amy Quayle, Alexandra Ramirez, Kopano Ratele, Christopher C. Sonn and Ramon Spaaij.

Artefacts of Writing Peter D. McDonald, 2017-10-11 Some forms of literature interfere with the workings of the literate brain, posing a challenge to readers of all kinds, including professional literary critics. In *Artefacts of Writing*, Peter D. McDonald argues they pose as much of a challenge to the way states conceptualise language, culture and community. Drawing on a wealth of evidence from Victorian scholarly disputes over the identity of the English language to the constitutional debates about its future in Ireland, India and South Africa, and from the quarrels over the idea of culture within the League of Nations in the interwar years to UNESCO's ongoing struggle to articulate a viable concept of diversity, McDonald brings together a large ensemble of legacy writers, including T. S. Eliot, James Joyce and Rabindranath Tagore, putting them in dialogue with each other and with the policy makers who shaped the formation of modern states and the history of internationalist thought from the 1860s to the 1940s. In the second part of the book, he reflects on the continuing evolution of these dialogues, showing how a varied array of more contemporary writers, from Amit Chaudhuri, J. M. Coetzee and Salman Rushdie to Antjie Krog, Arvind Krishna Mehrotra and Eskia Mphahlele, cast new light on a range of questions concerning education, literacy, human rights, translation, indigenous knowledge and cultural diversity that have preoccupied UNESCO since 1945. At once a novel contribution to institutional and intellectual history and an innovative exercise in literary and philosophical analysis, *Artefacts of Writing* affords a unique

perspective on literature's place at the centre of some of the most fraught often lethal public controversies that defined the long twentieth century and that continue to haunt us today

Arbitrary Power William Keach, 2015-07-28 This book explores previously unexamined links between the arbitrary as articulated in linguistic theories on the one hand and in political discourse about power on the other In particular Willam Keach shows how Enlightenment conceptions of the arbitrary were contested and extended in British Romantic writing In doing so he offers a new paradigm for understanding the recurrent problem of verbal representation in Romantic writing and the disputes over stylistic performance during this period With clarity and force Keach reads these phenomena in relation to a rapidly shifting literary marketplace and to the social pressures in Britain generated by the French Revolution the Napoleonic Wars and the class antagonisms that culminated in the Peterloo Massacre The question of what it means to think of language or politics as arbitrary persists through postmodern thinking and this book advances an unfinished dialogue between Romantic culture and the critical techniques we currently use to analyze it Keach's intertwined linguistic and political account of arbitrary power culminates in a detailed textual analysis of the language of revolutionary violence Including substantial sections on Blake Wollstonecraft Wordsworth Coleridge Byron P B Shelley Keats and Anna Jameson *Arbitrary Power* will engage not only students and scholars of eighteenth and nineteenth century literature but also those interested in critical and linguistic theory and in social and political history
