Unza Application Form For 2014:

Participation of Young People in Governance Processes in Africa Kurebwa, Jeffrey, Dodo, Obadiah, 2019-06-28

Active political engagement requires the youth of today to begin their journeys now to be leaders of tomorrow Young individuals are instrumental in providing valuable insight into issues locally as well as on a national and international level Participation of Young People in Governance Processes in Africa examines the role of young peoples involvement in governance processes in Africa and demonstrates how they are engaging in active citizenship There is an intrinsic value in upholding their right to participate in decisions that affect their daily lives and their communities and the content within this publication supports this by focusing on topics such as good citizenship youth empowerment democratic awareness political climate and socio economic development It is designed for researchers academics policymakers government officials and professionals whose interests center on the engagement of youth in active citizenship roles **Young Zambia** Karin

Moder, Heribert Zingel, 2022-08-08 Zambia is a remarkable country on a remarkable continent whose inhabitants to a large extent are still mostly poor but who are rightfully called entrepreneurs at heart As the Economist put it The 21st Century is the African Century Young Zambia portrays Zambia as a country amidst poverty and abundant resources In spite of major attractions such as the amazing Victoria Falls and vast national parks Zambia is not yet widely known as a tourist destination Among business people Zambia has a reputation of being Africa's second biggest producer of copper and being rich in other natural resources and gemstones Adding to this Zambia has recently been working on setting up a framework for becoming a major digital hub in Africa Last but not least NGOs and political observers praise Zambia for its history of several peaceful transitions between different ruling parties sth not yet to be taken for granted in Africa In August 2021 Zambian voters went to the polls bringing in the so called New Dawn Government under President Hakainde Hichilema a change which has since attracted a lot of international attention and caused the local currency Kwacha to appreciate The Young Zambia team of Zambian experts on country and people was thus inspired to work on a new edition of the book which was first published in October 2019 The new Africa Edition among other things includes information on Covid 19 in Zambia and will become available both in Zambia and Europe

People, Places, and Mathematics Thomas Ward, 2023-10-31 This memoir chronicles the journey of an academic tracing a path from primary school in Zambia to a career in higher education as a mathematician and educational leader Set against the backdrop of the 20th century the book explores how early influences and historical events shape an individual's life and professional trajectory The author shares childhood experiences across three parts of Africa providing an original perspective as a witness to the post colonial period Through personal reflections the memoir delves into the emergence of ideas and collaborations in mathematics and how these shape career choices It also offers candid observations on the major changes in British higher education since the 1980s Intended for a general audience this book provides a compelling read for anyone interested in the experience of becoming a mathematician and higher

education in general **Fieldwork in the Global South** Jenny Lunn, 2014-03-26 Choosing to do fieldwork overseas particularly in the Global South is a challenge in itself The researcher faces logistical complications health and safety issues cultural differences language barriers and much more But permeating the entire fieldwork experience are a range of intermediating ethical issues While many researchers seek to follow institutional and disciplinary guidelines on ethical research practice the reality is that each situation is unique and the individual researcher must negotiate their own path through a variety of ethical challenges and dilemmas This book was created to share such experiences to serve not as a manual for ethical practice but rather as a place for reflection and mutual learning Since ethical issues face the researcher at every turn and cannot be compartmentalized into one part of the research process this book puts them at the very center of the discussion and uses them as the lens with which to view different stages of fieldwork The book covers four thematic areas ethical challenges in the field ethical dimensions of researcher identity ethical issues relating to research methods and ethical dilemmas of engagement with a variety of actors This volume also provides fresh insights by drawing on the experiences of research students rather than those of established academics The contributors describe research conducted for their master's degrees and doctorates offering honest and self-critical reflections on how they negotiated ethical challenges and dilemmas The chapters cover fieldwork carried out in countries across Africa Asia and Latin America on a broad sweep of development related topics This book should have wide appeal to undergraduates postgraduates and early career researchers working under the broad umbrella of development studies Although focused on fieldwork in the Global South the discussions and reflections are relevant to field research in many other countries and contexts , *Cleveland State University Undergraduate Admissions* Cleveland State University, 1985 *How to Complete an Application Form* University of London.
